Standard Gear Locker with Solid Door

STANDARD GEAR LOCKERS - SOLID DOOR AND VENTED DOOR

Constructed of 16 gauge steel, Salisbury 71000 and 72000 series standard gear lockers are ideal when a secure environment for equipment, uniforms, clothing and many other applications is needed. Standard gear lockers are available with a solid front door panel (#71024) or a vented front door panel (#72024). Doors open from left to right and are attached to the gear locker with three (3) heavy duty hinges allowing for smooth operation. Doors include a recessed hasp for added security and can accommodate a built-in lock (#77710 for combination and #77715 for key) and padlock (#77720 for combination and #77725 for key) - see standard gear locker options on page 27. Measuring 24" deep, standard gear lockers are two (2) feet wide and six (6) feet high. They are available in a gray, tan or blue powder coated finish and as unassembled or assembled units. Standard gear lockers feature a 13-3/4" deep upper shelf with a 12" W x 12-1/2" H x 13-3/4" D top compartment that includes a recessed hasp. They also include two (2) 1/4" single wall hooks, a coat rod and a 14" high foot locker. The foot locker includes a hinged lid and a vented front panel with a padlock hasp for secure equipment storage. Built-in locks (#77710 for combination and #77715 for key) and padlocks (#77720 for combination and #77725 for key) are available as options upon request for the top compartment. Combination and keyed padlocks (#77720 and #77725) are available as options upon request for the foot lockers. For units without front door panels, see open access standard lockers on pages 24-25.
