

Zone Wall (LED)

700BCZONE_LED 1.0

GENERAL PRODUCT INFORMATION:

This product is suitable for damp locations.

This product can mount either to a 4" square electrical box with a round plaster ring or an octagon electrical box.

This product can be dimmed with a low-voltage electronic dimmer.

This product may be mounted vertically or horizontally.

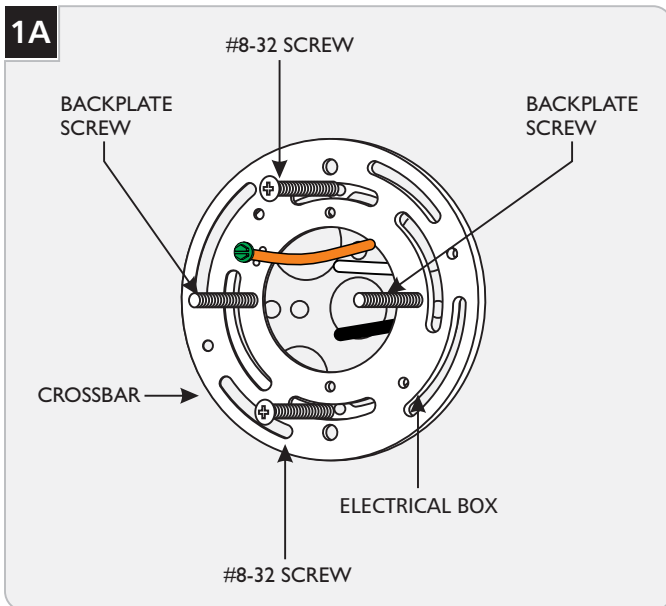

This instruction shows a typical installation.

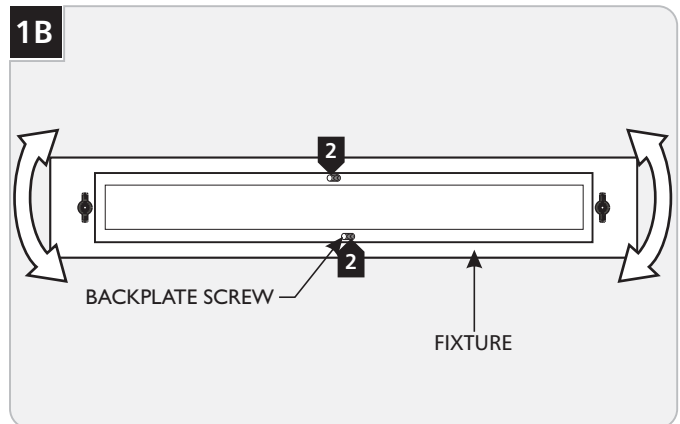

CAUTION—RISK OF FIRE

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and DISCONNECT POWER TO THE ELECTRICAL BOX.

Install the Fixture

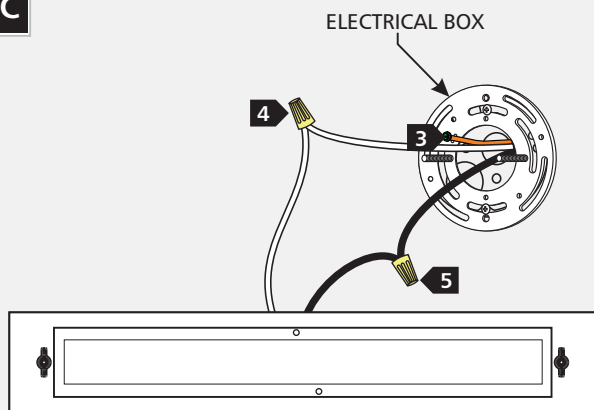

1 Snugly mount the crossbar to the electrical box with the two #8-32 screws provided.

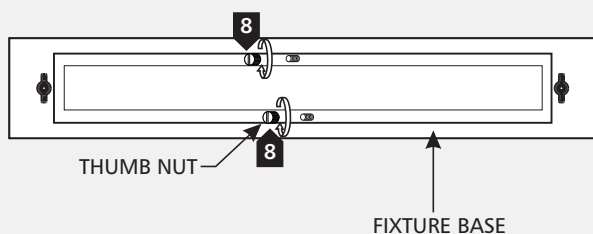

2 Temporarily mount the fixture onto the crossbar and level it.

3 Remove the fixture and now completely tighten the #8-32 screws on the crossbar.

1C

- 3** Connect the ground wire to a suitable ground in accordance with local electrical codes.
- 4** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 5** Connect the black fixture wire to the hot power line wire with a wire nut.

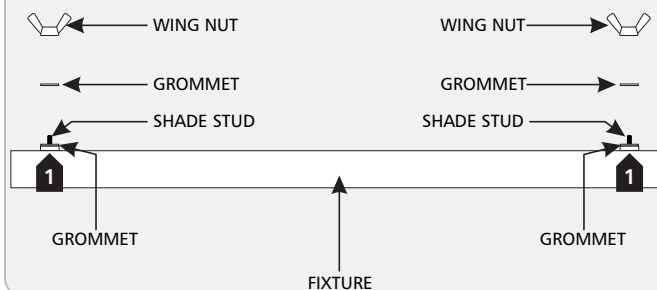

1D

- 6** Properly place all the wires and wire nut connections into the electrical box.
- 7** Line up the holes of the fixture base to the mounting plate.
- 8** Mount the fixture base to the wall by securing it tightly to the mounting plate with the thumb nuts.

Install the Shade

2A

TOP VIEW

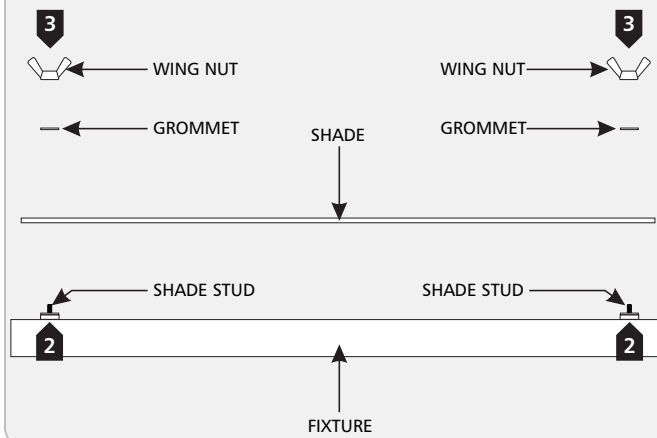

- 1** Remove two wing nuts and two grommets from the shade studs on the front of the fixture base. Ensure that a grommet remains on each shade stud.

Note: This product includes two different decorative wing nut finishes for a contrasting aesthetic appearance. Choose desired finish.

2B

TOP VIEW

- 2** Install the shade onto the fixture base until it rests on the grommets.
- 3** Place one grommet on each shade stud, then secure the shade by re-installing and re-tightening the two wing nuts.
