

**PENDANTS**

**GENERAL PRODUCT INFORMATION:**

This product is suitable for damp locations.

This product can be dimmed with a low-voltage electronic dimmer.

**CAUTION - RISK OF FIRE**

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

**NOTE:** This canopy may be installed to sloped ceilings with **MAX 45°** tilt.

**Install the Mounting Plate**

**1A**

**1** Separate the mounting plate from the canopy by removing the two screws.

**1B**

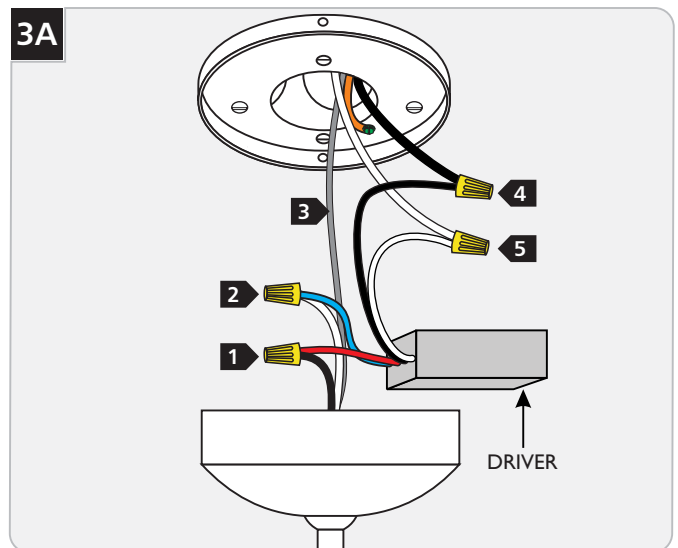

**2** Secure the mounting plate to the electrical box with the two #8-32 screws provided.

## Assemble the Fixture

- 1** Determine the wanted length of the fixture and, if necessary, screw the half ball/upper stem assembly onto the threaded nipple on the stem(s).
- 2** Feed the stem(s) through the canopy so that the half ball stem rests inside.
- 3** Feed the fixture wires through the stem(s) and tighten completely to the threaded nipple on the fixture.

## Install the Fixture

- 1** Connect the red driver wire to one of the insulated pendant wires.
- 2** Connect the blue driver wire to the other insulated pendant wire.
- 3** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 4** Connect the black driver wire to the hot power line wire with a wire nut.
- 5** Connect the white driver wire to the neutral power line wire with a wire nut.

- 6** Properly place the driver, all wires, and wire nut connections inside the canopy.
- 7** Align the canopy holes with the mounting plate holes and secure the canopy in place by tightening the two screws.

**SAVE THESE INSTRUCTIONS!**
