

Wall MonoRail 4" Round Direct Canopy Single-Feed With LED Transformer 

DESCRIPTION

This single-feed flush transformer converts standard 120 line-voltage to 12 volts to provide the necessary voltage for powering a Wall MonoRail low-voltage lighting system. It can power lamps totaling up to 60 watts. The transformer, concealed by a decorative canopy, fits in junction box and features a fast acting secondary circuit breaker that will safely turn the system off should a short occur. Once the short has been removed the unit can be reset by simply flipping the wall switch off and back on.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagonal electrical box (not included).

OTHER INFORMATION

White finish has satin nickel feeds. For use with a single-feed remote transformer (sold separately).

WEIGHT

0.95lb / 0.43kg
