Standard Care Procedures for Fabric Furniture.

In order to preserve the original appearance of your fabric furniture, please follow below simple care procedures:

- Avoid exposing furniture directly to sunlight or heating and air conditioning outlets. Sunlight and/or exposure to heating and air conditioning outlets will fade/damage fabrics. Do not place your upholstered furniture too close to windows, radiators, or vents, and be sure to use window treatments to block the sun's rays.
- Vacuum or wipe with a soft brush to remove dust.
- Clean fabric with professional cleanser.
