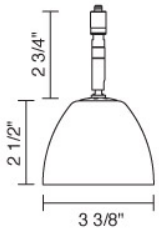
Fixture Type: Part Number:

RAINBOW MR16 SPOT



Description:
The Uni-Plug Rainbow MR16 Spot is a directional spotlight with red, orange, turquoise, and smoky colored clear glass. MR16 fixture has swivel action and a 360° rotation. As with all of Bruck's Uni-Plug fixtures, the twist and lock mechanism enables it to rotate continuously through 360º. A stainless steel clip in the fixture mount holds the MR16 in place and makes lamp replacement simple. Bruck's Uni-Plug design allows this fixture to be mounted on any of our track lighting systems or ceiling canopies through the use of an appropriate adaptor, not included.
