Fixture Type:

Part Number:

ORION BELT

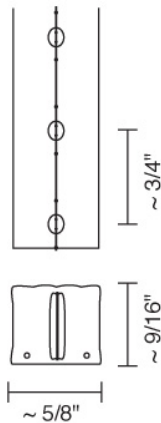

Description:

The Orion Belt provides the benefits of LED lighting in a unique, fully encapsulated and flexible design. Narrow beam spread LED's are mounted 3/4" on center to achieve maximum luminous intensity. The encapsulation is transparent UV stabilized PVC, suitable for outdoor use. Orion Belt is flexible down to a 10" radius allowing mounting in any configuration. The solid-state light source and extended operating life allows for little or no maintenance in difficult to access environments. Orion belt ships factory cut to specified length based on cut intervals.

Part Numbers:

135401	LED white
135401-1	LED warm white
135402	LED blue
135403	LED green
135404	LED red
135405	LED amber

Technical Specs:

24V DC constant voltage input

(White, Warm White, Blue and Green)

- 1.25W per foot
- 75ft max length
- 4.5" cut intervals

(Red and Amber)

- 0.75W per foot
- 126ft max length
- 9" cut intervals

Operating temperature between -4F through 140F

Class II rated

Suitable for outdoor use

Optional Accessory Not Included:

Orion Belt Clip

Orion Mounting Channel
