ASSEMBLY GUIDE:-

IMPORTANT: PLEASE READ BEFORE COMMENCING ASSEMBLY

1. Assemble fitting as shown in diagram. (Note remove thread protective packaging if fitted).
 - Step 1. Screw fit stem 1 to dimmer block.
 - Step 2. (If applicable) Screw fit stem 2 onto stem dimmer block.
 - Step 3. Screw stem 1 to base carefully ensuring that you do not cross thread.
 - Step 4. Loosen cable clamp and pull excess cable through base.
 - Step 5. Re-tighten cable clamp.
 - a) If applicable, fit lamp bulbs of type and wattage indicated. Do not exceed maximum wattage.
 - b) Make sure all components are aligned and straight before tightening fully. Be patient while threading components together as threads will be damaged if not aligned correctly
 - c) **Make sure every joint is securely tightened.**
2. Plug the unit into the mains socket and switch on.
3. If the unit does not light up, check to make sure the lamps is properly inserted. If the unit still does not light, turn off the switch at the mains socket and remove the plug. Check the fuse in the plug and if necessary replace with a 3A fuse. If the unit still does not work, please consult your retailer for advice.
4. **Replacement Lamps**
 Should a lamp need to be replaced the user **MUST ensure that the replacement is a 240V 300W R7s Linear Halogen for the main light & G9 40W for the small arm light.**
 (Replacement lamps may be obtained from the stockist where you purchased this article)

This product is supplied with Osram G9 lamps. Should the bulb need replacing we recommend that you use Osram bulbs of the same type wattage & voltage.

Warning

Keep lamp away from flammable materials; maintain a minimum distance of 0.5m from any flammable materials such as curtains, clothing etc.

Maintenance and Care.

1. Never touch the bulb if the lamp is switched on or if it has just been switched off in order to avoid burning.
2. To avoid electrical shocks never uncover the base.
3. Avoid direct contact of the lamp with water.
4. Before replacing a defective bulb, unplug the lamp and let it cool down for at least 10 minutes.
5. If necessary, the lamp can be cleaned with a clean dry or slightly damp cloth. Do not use polishes or abrasive cleaners as this will damage the lacquer finish on the base.
- **CAUTION: please unplug it at least 10 minutes before cleaning.**
6. The lamp should be placed on a dry and clean surface.
7. Only use the lamp indoors.
8. If the external cable or cord is damaged it should be replaced by the manufacturer or his service agent or similar qualified person in order to avoid hazard.
9. If the plug is damaged and requires replacement, a UK approved 3-Pin plug fitted with 3A fuse should be used.
10. Plug should be wired up as shown.
