

# Mixed Up

# Features

Let your mind wander through the possibilities of design with the versatile collection of "Mixed Up", stone and glass blend mosaics. An array of stone and glass blends in three sizes, this collection of mosaics will make any tile setting a custom work of art. Options include marble, travertine, slate and stone blends all mixed with various colors of glass to give a spectacular optical effect.

- II color pallets in 3 mosaic sizes: 5/8'' x 5/8'' Mosaic, I'' x I'' mosaic, and Random linear mosaic (narrow rectangles of varying lengths)
- All styles are an exciting, eclectic mix of stone and glass—for a luxurious designer look!

#### Colors:

#### Tumbled Stone

- 200 Dune—Tumbled travertine in washed sandy tones, glass accents in beiges; overall effect is sandy neutral
- 270 River Bed—Emperador dark marble with touches of crystalline veins and classic travertine in earthy beiges, glass in rich beiges and browns; overall effect is balanced with mix of darks and lights
- 700 Dakota—Emperador dark marble in deep browns and ebony with rich taupe veins; glass in deep beige to medium-brown; overall effect is dark neutral
- 720 Canyon—Emperador light marble pale bone to light beige and grey; crystal & frosted glass in pale greys, beige, and soft brown; overall effect is medium neutral with darker accents
- 900 Black Hills—deep charcoal marble with crystal & frosted glass in greys and ebony
- 100 Snow Peak—winter-white marble with crystal & frosted glass in the palest greys

#### Slate

- 500 Pikes Peak—glass in very pale and medium grey, stone in greys with caramel veining; overall effect is balanced with mix of darks and lights
- 200 Denali—glass in sandy beiges, stone in medium greys with rust veining; overall effect is medium neutral
- 230 Spring Valley—glass in cream, olive, and grey; stone in greys with rust veining; overall effect is balanced with mix of darks and lights
- 750 Piedmont—glass in browns and chocolate, stone in greys with rust veining; overall effect is dark neutral
- 650 Crested Butte—glass in dark cream, caramel, and medium brown; stone in greys with rust veining; overall effect is balanced with mix of darks and lights

Slate	Style
5/8" Mosaic Slate	CS99F
Random Linear Mosaic Slate	CS01G
IxI Mosaic Slate	CS02G

\*OSHA (Occupational Safety and Health Administration) has established a recognized industry standard of 0.5 (wet and dry) for slip-resistant surfaces. The Americans with Disabilities Act (ADA) recommends, but does not require, "a Static Coefficient of Friction of 0.60 for accessible routes and 0.80 for ramps." ADA does not specifically state that 0.60 is both a dry and a wet requirement. It is important to note that any tile or other hard surface flooring can become slippery when wet or improperly maintained. Products installed in an exterior application must comply with applicable ANSI 108 series of the "American National Standard Specifications for the Installation of Ceramic Tile" and comply with TCA installation methods applicable to installation conditions.
