Sleepy Hollow Oak — SW180

Artisans scrape every plank of Sleepy Hollow Oak by hand to give it a **time-worn** texture. Plus 3 1/4" and 5" widths are packaged **together** to create a random-width “**designer**” floor.

Green. It's something we never forget.
That's the **Shaw Green Edge™**

thickness x width		3/8" x 3 1/4" & 5"
species		oak
edge description		microbeveled edges and ends
warranty		now & forever lifetime wear
installation method		glue/staple/nail/float

Note: All woods are affected by light. Some exotic species will darken while other species will tend to lighten over a period of time when exposed to natural and artificial light sources. Some wood species darken and/or lighten at a faster rate than others. This is a natural characteristic of wood and does not constitute any type of product defect.

SHAW GREEN EDGE™

Epic's 3/8" thick hardwood products use approximately 50% less newly forested wood in their production than conventional 3/8" engineered alternatives.

That's the Shaw Green Edge |

Key Selling Features

Shaw warrants to the original purchaser that the face surface of this engineered hardwood product will not peel off or wear through for as long as you own your home.

Shaw hardwood is labeled with a Color Variation Rating to distinguish the degree of color variation within each box of flooring and between several boxes of the same color. This hardwood is rated CV2 Moderate with distinguishable differences in color variation. It is imperative that hardwood planks from various cartons be continually blended during installation to insure optimum appearance.

Epic hardwoods in oak, hickory or walnut are warranted to be installed over approved radiant heated subfloors when using approved methods of installation.

This Shaw product is made in the USA.

This Shaw product can be installed above, on or below ground level.

This Shaw hardwood is protected by our DuraShield™ finish, which provides superior wear resistance and lasts up to seven times longer than conventional UV cured urethane.

This product is made with Shaw's EnviroCore™, a high-density fiber core derived from recycled wood fiber, which means fewer trees are used with less waste.
