- Integrated cable clip organizes and routes cables
- Easily attaches to LCDs that are VESA® MIS-D, 100/75, C compliant

Ergotron® Neo-Flex™

LCD Arm

The Neo-Flex LCD Arm is the perfect accessory to add flexibility to your LCD monitor or TV. Sleek and streamlined, it frees up desk space and allows you to adjust the height of your LCD. With the simple touch of a button, you can raise or lower the LCD to:

- Increase viewing comfort
- Reduce glare
- Meet the sight line needs of other users

For quick height adjustment, simply push the side button with one hand while lifting the LCD with the other hand. Then position the LCD where you want it and release the button. It's ideal for home and office use, especially situations where several people use the same display.

Desk clamp base uses little space yet ensures stability even as the LCD is adjusted (optional grommet mount kit included).

The Neo-Flex LCD Arm is compatible with LCDs or TVs that are VESA compliant. Simply remove the existing base of the LCD and attach the LCD to the Arm.

Range of Motion

Basic Specifications

Description: Neo-Flex LCD Arm, model NF08LD1S
 Consumer Part Number: 45-185-194 (silver)
 Commercial Part Number: 45-174-300 (silver)
