

Quality, Durability, and
Value... All in One.

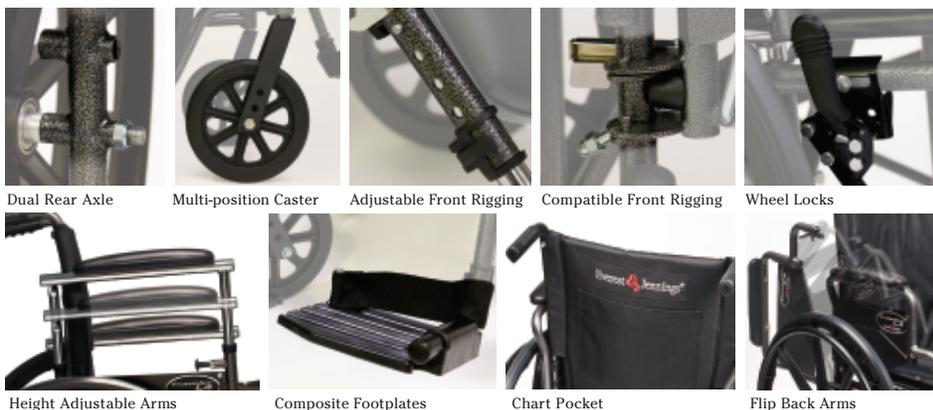

Everest & Jennings®

Introducing Everest & Jennings' Newest Line Of Performance And Durability... The Traveler L4.

The Everest & Jennings Traveler L4 is the ideal lightweight, high-strength wheelchair that provides both quality and durability designed to meet today's needs. The Traveler L4, designed as a K0004 Medicare code wheelchair, features flip back arms which allow for easy transfer. Its carbon steel frame and precision wheel bearings ensure reliability and long-lasting performance. Weighing in at 32 lbs, this lightweight and low maintenance solution makes this wheelchair of superior value.

The Traveler L4 is manufactured with the same commitment to quality Everest & Jennings is known for.

FEATURES:

Carbon Steel Frame with Silver Vein Hammertone finish is long lasting, scratch resistant and more environmentally friendly.

Dual Rear Axle and forks with multi-position caster holes allow for easy seat height adjustment.

Flip Back Arms with fixed and adjustable height options allow for easy transfer.

Black Nylon Upholstery is strong, flame-retardant and durable.

Polyurethane Tires offer a smoother ride and enhanced performance.

Industry Compatible Spaced Front Rigging fits most other industry models and offers "tool free" adjustment.

Anti-tippers come standard with each wheelchair.

Composite Footplates are lightweight and durable with heel loops standard on swing away footrests.

Chart pocket comes standard with the Traveler L4 models.
