CONTEMPORARY COLOR PANEL LECTERNS

Great looking contemporary solutions for your presentation needs. These **49" tall** lecterns provide a modern style that will match your current décor. The spacious reading shelf measures **26.75" wide x 16.75" deep** providing enough room for your speaker. Overall height of 49". The high-density polyethylene (a plastic also found in the marine industry) construction of black bottom and reading shelf complement the styling of these lecterns black anodized aluminum uprights. The look is completed by the jewel mahogany Formica panels that snap into the aluminum uprights in seconds without the need of tools. The acrylic shelf located in the back of these lecterns is an ideal spot to keep a glass of water or laser pointer nearby.

CONTEMPORARY CURVED LECTERNS

Break the mold with one of these gracefully curved lecterns. A great looking addition to any conference room, lecture hall or meeting place, these stylish models sport a curved front and flat rear panel. The spacious reading shelf (**26.75"W x 17.5"D**) provides all the room you need to deliver that killer presentation. The reading shelf and sturdy base (**26.75"W x 17.5"D**) are made from high-density polyethylene for great looks and long life. The black anodized aluminum sides complete the look of these **47.25" tall** lecterns and feature a channel that allows the front and rear panels to easily snap-in. Included in the box is an acrylic shelf which mounts to the rear providing you an out of sight place to keep that beverage.
