# 50-Watt Multimedia Stereo Amp - Your Presentation Partner SW805A Series Amplifier with Built-in Wireless Receiver

Dual Wireless Capability - A & B Frequencies - 2 Wireless Presenters- Up to 4 Presenters Simultaneously

## DUAL WIRELESS TWO WIRELESS PRESENTERS AT THE SAME TIME

Line Input has its own volume and tone controls. Volume is separate from mic volume, allowing use of CD/tape player, VCR for multi-media presentations without overpowering the presenter(s). Perfect for interactive presentations. Increases the sound from a projector from 1 or 2 watts to 50 powerful watts.

25-watts per channel. Left and right speaker jacks for connecting multiple speakers (up to 4 with y-connectors).  
**True Stereo Sound!**

### SW805A Multimedia Amplifier

50 watts of power. Runs on 10 D-cell alkaline batteries for up to 200 hours of talk time. Nicad Battery Pack runs 20 hours after recharging. For indoor use, the International AC Adapter/Recharger (110/240V; 50/60Hz) converts the system to AC power. DC Adapter powers the amplifier from the cigarette lighter in a car.

Line out allows presenter(s) to tape presentations as they happen, line out records the mixed presentation, not just the speaker.

Protect your amplifier with a mounting bracket; no more loose amplifier to watch out for; flexible mounting options; bracket attaches easily to lectern with 4 screws. Amplifier fits securely in base and easily slides on to bracket. Once in place is in.

Separate dynamic, condenser with phantom power, and wireless microphone inputs with a volume control for the mics. All three inputs are sound balanced and can be used simultaneously. Great for group presentations and presentations involving the audience.

Use line-in to create memorable presentations by adding pre-recorded music or sound effects via CD player, tape player or computer sound card.

Built-in wireless receiver in SW805A series amplifier. Dual wireless capability. A & B Frequencies 2 Wireless Presenters up to 4 presenters simultaneously.

### Amplifier Features

- ✓ SW805A with built-in wireless receiver or S805A amplifier available with every complete sound system.
- ✓ A & B channels - Add second external wireless system to amplifier.
- ✓ 4 mic inputs (dynamic, condenser, 2 wireless) can be used at the same time.
- ✓ 50 watts nominal output; 25 watts per channel. All integrated circuit design.
- ✓ Line-in has separate tone and volume controls.
- ✓ Auxiliary input jack for a CD player, tape player or computer projector. Capture your audience's attention with a mixed media presentation by adding background music and sound effects.
- ✓ Line-out jack for a tape recorder or computer. You can record your presentation as it is happening.
- ✓ 2 speaker jacks for a total of 4 speakers possible (using Y-connectors). Great for true stereo sound and for amplifying over a wider area.
- ✓ Never run out of power! International AC Adapter/Recharger (S1460) plugs into amplifier and converts to AC power or recharges S1465 NiCad Battery Pack. 110/240V; 50/60Hz. Sold separately.
- ✓ Battery powered by 10 Alkaline D-cells for up to 200 hours talk time (not included); Rechargeable S1465 NiCad Battery Pack lasts 20 hours after recharging (requires S1460). **All Sold Separately.**
- ✓ Easily mounts to lectern with our mounting bracket (sold separately).
