

Single Feed

800RLP4C02S

1.9

GENERAL PRODUCT INFORMATION:

This product is suitable for indoor dry locations only.

This product must be used with Tiella lighting system only.

CAUTION — RISK OF FIRE
 This product requires installation by a qualified electrician. Before installing be sure to read all instructions and **TURN THE POWER TO THE ELECTRICAL BOX OFF.**

Install the Power Feed Canopy

NOTE: Use the provided universal round crossbar when the canopy holes do not line up with the electrical box holes.

NOTE: The low voltage wires from the remote transformer must be present in electrical box. Follow the instruction provided with the remote transformer prior to these steps.

1 Connect the low voltage wires to the power feed canopy wires with the wire nuts.

- 2** Place all wire nut connections properly into the electrical box.
- 3** Mount the power feed canopy to the electrical box with two #8-32 flat head Phillips screws.

- 4 Remove the cap from the housing.
- 5 **DO NOT REMOVE** the insulator unless the power feed connector is going to be mounted onto the conductive rail join connector.

Mount the Rail Directly to the Power Feed Canopy

- 1 Push the rail into the housing so that the rail fits in the middle of insulator.

- 2 Replace and tighten the cap to the housing.

NOTE: In case of cross threading, unscrew the cap from the housing and repeat step 2.

- 3 Tighten the screw on bottom of the cap with the 3/16 Allen wrench.

SPECIAL INSTALLATION: Mount the Conductive Rail Join Connector to the Power Feed Canopy

1 Remove the insulator.

2 Push the conductive rail join connector into the housing.

3 Replace and tighten the cap to the housing.

NOTE: In case of cross threading, unscrew the cap from the housing and repeat step 3.

4 Tighten the screw on bottom of the cap with the 3/16 Allen wrench.
