

Since 1911

Kennedy®

USA MADE CHESTS AND CABINETS

AMERICA'S PREMIER INDUSTRIAL TOOL STORAGE

Proudly Serving America Since 1911

100 years, that's how long Kennedy has been building the industry's most dependable tool storage units. It was in 1909, that Howard Kennedy, an engineer with the Pennsylvania Railroad, became an innovator born from need. Due to the rigors of the railroad, the standard fabric cloth tool holders were not protecting his gear. From his garage in Fort Wayne, Indiana, Howard designed and built a metal suitcase for himself, which was then being requested by the other engineers who worked for the rail lines. Howard's brother Charles, at that time an advertising executive with J. Walter Thompson Company in Chicago, noticed the value in Howard's creation of suitcases. It was at that time that the brothers began discussing the business potential for Howard's new all metal suitcase.

It was in 1911 that Kennedy Manufacturing Company was formally established, with Charles acting as its Secretary/Treasurer and General Manager, while Howard ran the factory in Fort Wayne, IN. Together, they designed and manufactured the first metal mechanics box and metal tackle box for Kennedy. In 1914, at the urging of a group of local businessmen from Van Wert, Ohio, the factory was relocated from Howard's garage in Fort Wayne, to a building, ironically located beside the Pennsylvania Rail Road tracks in Van Wert. From this move, a vision was formed, concentrated on improving the mechanics chest and tackle boxes and designing a variety of different metal products; lunch boxes, electricians kits, machinists chests, car luggage carrier, utility shelves, roller dolly and roller cabinets.

What started as a need for durability evolved into 100 years of commitment to building the highest quality American made products possible. During the past 100 years, our products have stood beside the American worker through the great depression, several recessions, prohibition, two world wars, a missile crisis, lunar landings, the building of a wall, the fall of the wall, September 11th, and the first and last shuttle launch. In that time, our commitment to our customers, community and employees has never wavered.

We take great pride in the fact that Kennedy branded products are still to this day being manufactured in Van Wert, Ohio, with many second and third generation craftsman.

We recognize that without your loyalty to the Kennedy product line, we would not be celebrating this tremendous milestone. We thank you for choosing to purchase our product and strive to continue to provide you, our customer, with finest quality tool storage solutions at competitive prices.

QUALITY

Design, construction and fabrication methods with functionality and ease of use.

SECURITY

High-security locks and internal locking mechanism.

FLEXIBILITY

Modular and interchangeable drawers and slides for re-configurations.

DURABILITY

Long life and endurance in harsh environments and work abuse.

THE KENNEDY CONFIGURATOR

Design and Build Your Custom Kennedy Modular Cabinet

Visit our website at www.kennedymfg.com

Kennedy modular cabinets are custom-designed around the specific needs of your operation. Kennedy's web configurator allows you to quickly choose and configure your drawer arrangements, select drawer divider options for each individual drawer, and select accessories and color combinations for your cabinet, even for each individual drawer.

Easy Navigation

The configurator makes customizing your modular cabinets easy!

- Product Selection
- Drawer Sizes
- Drawer Dividers
- Color combinations down to individual drawers!

Customization

- Kennedy's web product configurator is flexible
- Provides 9 colors in any drawer/body combination
- Change drawer heights in the field for future needs

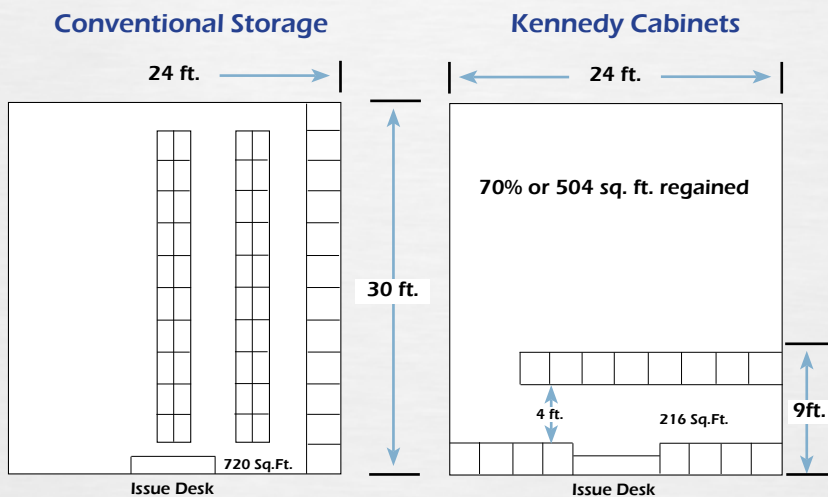

Kennedy High-Density Modular Cabinets

Kennedy modular cabinets and products provide specific benefits across a wide range of industrial and commercial applications. Key application benefits are higher productivity, storage maximization, security and safety.

Our modular products provide a high-density solution to making your storage space perform any time your operations involve the storing and retrieval of tools, parts or supplies by specialized technicians or personnel.

These modular cabinets are custom-designed around the specific needs of your operation. Kennedy's web configurator allows you to quickly choose and configure your drawer arrangements, select drawer divider options for each individual drawer, and select accessories and color combinations for your cabinet, even for each individual drawer.

Conventional Storage
 68 Sections of Conventional Shelving with
 38 opening/Section = 2,584 compartments.
AVERAGE RETRIEVAL TIME PER ITEM = 3-4 MINUTES

V.S.

Kennedy Cabinets
 16 Kennedy Cabinets with 748 drawers,
 172 compartments = 2,752 compartments.
AVERAGE RETRIEVAL TIME PER ITEM = 1 MINUTE

Benchmark Series®

The ultimate in tool storage for the mechanic, the Benchmark Series has everything you want and more. From the safety of gas shock lid stays to rugged, heavy-duty casters, Benchmark is job ready. Made in the USA, you'll get Kennedy quality that will last a lifetime. Extra wide drawers can hold up to 420 lbs. Large bank drawers on all 53" and 60" also have 220 lb slides.

Product Features:

Gas-Shock Lid Stays

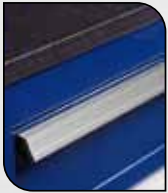

Smooth Operating Ball-Bearing Drawer Slides Hold Up to 120 lbs Each. Extra Wide Drawers Hold Up to 420 lbs Each.

High Security Tubular Locking System

Heavy-Duty 6" x 2" Roller Bearing Casters with 900 lb Capacity Per Caster

Full-Width, Extruded Aluminum Drawer Pulls w/ Black Plastic Endcaps & Coated MDF Work Surface on Roller Cabinets.

Aluminum Corner Trim Protects Against Nicks and Scrapes

Soft Rubber Ergonomic Push Handle

THE INDUSTRIAL SERIES

Product Features:

High Security Tubular Locking System

Heavy-Duty 5" Casters On All Models

Choose Between Standard Friction Slides or Smooth Operating Ball-Bearing Drawer Slides That Hold Up to 120 lbs Per Drawer

Tubular Steel Side Handles

Extruded Aluminum Drawer Pulls

- 27" Wide roller cabinets accommodate 27" wide or smaller top chests and chest bases.
- 29" Wide roller cabinets accommodate 29" wide or smaller top chests and chest bases.

21041 ROLLER CABINET COMBINATION LOCK

The mechanical combination lock offers quick and easy access. No need to worry about lost or missing keys. In the event the combination is changed or forgotten, an emergency key override is included.

21042 ROLLER CABINET ELECTRONIC PUSH BUTTON LOCK

The electronic push button lock can store up to five user access codes simultaneously with a multitude of code sequences available. This lock is powered by a battery pack that services over 3,500 openings of the cart. A low-battery warning light indicates when the power supply is down to 1,500 openings.

Customize the color of your products. Simply place one of the abbreviations at the end of the model number.

Custom Designed Modular Cabinets

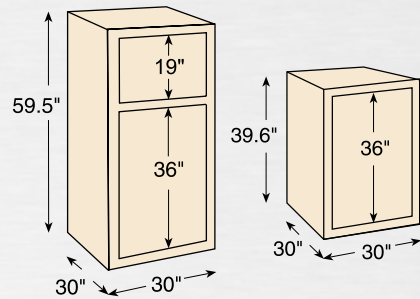

While we offer pre-engineered modular cabinets for your convenience, you may also design your own to fit special tool storage requirements. Log on to our website at www.kennedymfg.com to design your own modular cabinet. It's convenient and easy. Or, you may call our customer service department at 800-413-8665 and speak to one of our representatives for personalized assistance.

30" x 30" Standard Width Housings

Cabinet housings can be filled with full extension (FX), 550 lbs., or normal extension (NX), 220 lbs., drawers. They can be mixed within these cabinets for cost efficient combinations.

Select any combination of drawer front heights that equal the usable height of the cabinet. NX drawers can be converted to FX drawers at a later date if storage requirements change. All 2" drawers are NX type drawers.

Fork lift bases and pallet truck bases are available. See page 43 for more information. Dividers sets shown below. Other drawer accessories are on page 42.

Housing No. 63600 Usable Height 55"
Housing No. 63400 Usable Height 36"

Standard Width Drawers for all 30" x 30" Cabinets

Drawer pans have perforations for easy installation of dividers and accessories. Drawer fronts bolt on to allow changing drawer heights easily as storage needs change. Inside dimensions of drawers are 26" x 26" giving 4.69 sq. ft. of storage area.

NX drawers have 87% rail extension; 220 lbs. capacity.

FX drawers have 100% rail extension; 550 lbs. capacity.

Custom Designed Modular Cabinets

While we offer pre-engineered modular cabinets for your convenience, you may also design your own to fit special tool storage requirements. Log on to our website at www.kennedymfg.com to design your own modular cabinet. It's convenient and easy. Or, you may call our customer service department at 800-413-8665 and speak to one of our representatives for personalized assistance.

44" x 30" Extra Wide Housings

Extra wide housings require full extension (FX), 550 lbs. drawers. Select any combination of drawer front heights that equal the usable height of the cabinet.

Drawers and drawer divider sets are listed below. All models are shipped assembled and come with lock and two keys. Additional accessories are on page 42. Fork lift base and pallet truck bases also available on page 43.

Extra Wide Drawers for all 44" x 30" Cabinets

Heavy-gauge, welded steel FX drawers are mounted on eight ball bearings for smooth operation under heavy loads. Drawer fronts bolt on to allow changing drawer heights easily as storage needs change. Inside dimensions of drawer are 40.16" W x 26" D.

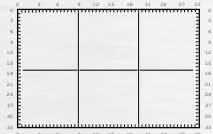

FX drawers have 100% rail extension and 550 lbs. capacity.

It is highly recommended that modular cabinets be bolted to the floor to prevent tipping/serious injury.

Customize the color of your products. Simply place one of the abbreviations at the end of the model number.

Extra lead time required.

Kennedy's work stations include all the components you need for an individual bench or a complete work station complex. Featured are our most popular work station combinations. To order, choose the work station that suits your needs and a 60" or 72" maple top. You may order our standard combinations or custom design the units you need from individual components. See page 36 for cabinet housing and drawer information. Drawer dividers and accessories are on page 42.

Our hybrid modular system combines the economy of roller cabinet construction with modular cabinet features. Compact, high-density storage that saves space while it organizes parts, tools and supplies. Cabinets are stackable, can be fork-lifted or used as work stations. Cabinets can also be used as work station base cabinets, using two cabinets to support work surface or one cabinet with adjustable work station leg 66200 shown on page 38. Body made of 16 gauge steel; drawers of 18 gauge steel.

Plastic Box Sets for 24" x 24" Modular Cabinets

Adjustable Shelf

- Adjustable support brackets allow shelf location to be easily changed.

Pull Out Shelf with Drawer Handle

- Safety feature, lock-out pin prevents shelf from moving back inside the cabinet until the pin is released.

Bottom Shelf

- Turns cavity in bottom of cabinet into easy access storage area.

Pull Out Shelf with Gussets

- For use in cabinets with doors.
- Features safety lock-out pin mechanism.

Modular Cabinet Doors

- Secure expensive tools and supplies behind a locking door.
- Comes with attachment hardware and lock/key set.
- Pull out shelf with gussets must be used instead of standard drawer with drawer pull in order for door to close.

Angle Brackets

- Includes one left hand and one right hand angle bracket and mounting hardware.
- 6" W x 8" D x 4.5" H.
- Net Wt. .4 lbs. Ship Wt. 1 lbs.
- Model 50054

Fork Lift Bases

- Bolt easily onto cabinet.
- Come with front covers.
- Height, 2.4"H.

Pallet Truck Bases

- Bolt easily onto cabinet.
- Come with front covers.
- Height, 4"H.

NC/CNC PLASTIC SOCKETS

Kennedy plastic sockets are of high quality, break resistant plastic. Shockproof ABS plastic sockets firmly support and protect tool holder shanks. Sockets are available for standard tapers, Morse tapers and straight shank tool holders. All plastic sockets are available in red only.

70059 socket for #30 taper tool holders. Also Cat V#3, Morse 3. Up to seven sockets will fit 70060 tool tray.

70067 socket for #35 taper tool holders. Also, Cat V#3, Morse 4. Up to seven sockets will fit 70060 tool tray.

70051 socket for #40 taper tools. Also, Cat V#4. Up to seven sockets will fit 70060 tool tray.

70052 socket for #45 taper tools. Also, Morse 5. Up to six sockets will fit 70060 tool tray.

70053 socket for #50 taper tool holders. Also, Cat V#5. Up to five sockets will fit 70060 tool tray.

70100 socket for straight shank tools up to 1.2" dia. (30 mm). Up to ten sockets will fit 70060 tool tray.

70064 socket for straight shank tools up to 1.4" dia. (36 mm) TR36. Up to seven sockets will fit 70060 tool tray.

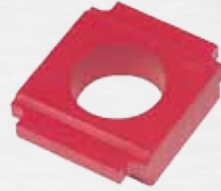

70063 socket for straight shank tools up to 1.5" dia. (40 mm). Up to seven sockets will fit 70060 tool tray.

70056 socket for straight shank tools up to 1.75" dia. (44.4 mm). Up to six sockets will fit 70060 tool tray.

70065 socket for straight shank tools up to 1.97" dia. (50 mm). Up to six sockets will fit 70060 tool tray.

70057 socket for straight shank tools up to 2" dia. (50.8 mm). Up to six sockets will fit 70060 tool tray.

70066 socket for straight shank tools up to 2.4" dia. (60 mm). Up to six sockets will fit 70060 tool tray.

Up to 4 will fit a tray

70090 socket without holes, for special sized tools. Holes up to 1.2" can be drilled. Up to eight sockets will fit 70060 tool tray.

70092 socket without holes, for special sized tools. Holes up to 2.25" can be drilled. Up to six sockets will fit 70060 tool tray.

70094 socket without holes, for special sized tools. Holes up to 3.5" can be drilled. Up to five sockets will fit 70070 tool tray.

70096 socket without holes, for special sized tools. Holes up to 3.7" can be drilled. Up to four sockets will fit 70070 tool tray.

Plastic sockets are designed to secure and protect Modular Quick Change Units

It is highly recommended that modular cabinets be bolted to the floor to prevent tipping and serious injury.

Machine Cabinets can be custom-designed. The example at the right includes:

- Model 63400 30" x 30" modular cabinet housing
- Model 63302 pull-out shelf
- One 4" drawer and two 12" drawers
- Four 76209 socket partitions
- Plastic sockets

The CutterKart™

Pre-configured CutterKarts come with four metal and ABS plastic tool holder plates. Made of 18 gauge steel.

CutterKart™ Facts and Features:

Includes four metal and ABS plastic toolholder plates.

5 x 2" roller bearing casters, two rigid and two swivel with brakes, roll across the roughest floors with ease.

- Pre-configured trolley holds up to 56 #40 taper tools.
- Weight capacity of 1,200 lbs.
- **Model 73240**

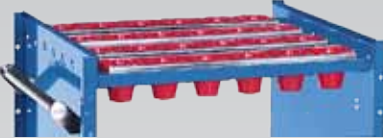

- Pre-configured trolley holds up to 40 #50 taper tools.
- Weight capacity of 1,200 lbs.
- **Model 73250**

The ToolKart™

Pre-configured ToolKarts come with six frames and plastic sockets. Additional tool frames, plastic sockets and trolley accessories must be added separately. Made of 18 gauge steel.

ToolKart™ Facts and Features:

ToolKarts include sturdy metal socket frames that hold a variety of sockets. Order pre-configured cart and add additional socket frames and toolholders as your storage requirements change. Or, custom-design your own ToolKart™.

5 x 2" roller bearing casters, two rigid and two swivel with brakes, roll across the roughest floors with ease.

- Pre-configured trolley holds up to 42 #30 taper tools.
- **Model 73030**

- Pre-configured trolley holds up to 42 #40 taper tools.
- **Model 73040**

- Pre-configured trolley holds up to 36 #50 taper tools.
- **Model 73050**

- ToolKart only.
- Includes tubular end handle and 5 x 2" roller bearing caster set.
- **Model 72001**

- Sturdy socket frame bolts to end walls of ToolKart.
- Holds up to 11 #30 taper tools.
- **Model 70062**
