CAUTIONS

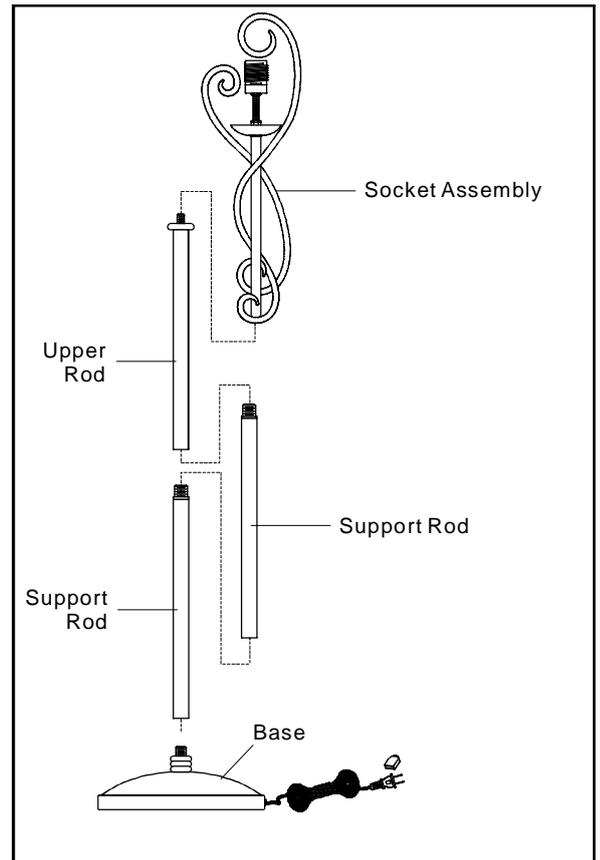

- These instructions are provided for your safety. It is very important that they are read completely before the installation of your fixture. We strongly recommend that a professional electrician install the fixture.
- Disconnect fixture from the power source before replacing the bulb(s), making sure the bulb(s) had sufficient time to cool down. DO NOT subject the lamp to any shock while lit as shattering of lamp may result.

PREPARATION

- Before beginning installation of product, make sure all parts are present. Compare parts with package contents list and diagram above. If any part is missing or damaged, do not attempt to assemble, install or operate the product. Contact customer service for replacement part.
- Estimated Assembly Time : 15 - 30 minutes
- Tools Required for Assembly (not included) : (1) 150W Type - A Medium Base Bulb.

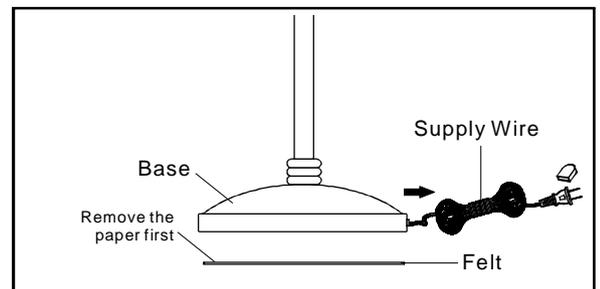

STEP 1:

- a. Place the Base onto a flat floor surface.
- b. Thread the Base, Bottom Rod, Medium Rod, Upper Rod and the Socket Assembly together as shown. Hand tighten until snug.

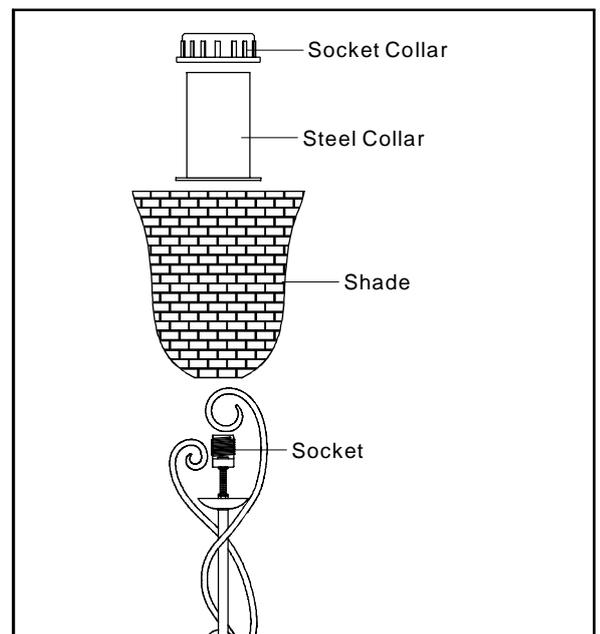

STEP 2:

- a. Pull the Supply Wires out of the Base as arrow shown in the illustration.
- b. Remove the paper from the Felt first, and then affix the Felt onto the bottom of the Base.

STEP 3:

- a. Pass the Shade and the Steel Collar over the Socket as shown. Secure by threading the Socket Collar onto the Socket. Hand tighten until snug.

STEP 4:

- a. Install the correct Bulb referring to fixture markings and/or labels for maximum wattage.

Your installation is completed now. Restore electricity. Keep this sheet for future reference.
