CARE & SAFETY

- **In case of fire, do not attempt to extinguish any burning polypropylene with water | Unsuitable for storage of flammable or corrosive substances**
- It is of utmost importance to assemble all of the parts according to the directions. Do not skip any step.
- Please consult your local authorities if any permits are required to erect shed.
- Periodically check shed to assure that it remains stable and that the site remains level.
- It is highly recommended to secure the shed to an immovable object or to the ground by drilling holes in the floor at the pre-marked locations and inserting proper screws into the ground (size: 1.9”-3” ,screws are not included).
- Wear safety-goggles and always follow the manufacturer’s instructions when using power tools.
- Wash shed with garden hose or a mild detergent solution. Using a stiff brush or abrasive cleaner could damage shed.
- Hot items such as recently used grills, blowtorches, etc. must not be stored in the shed.
- Heavy articles should not be leaned against the walls, as this may cause distortion.
- Keep roof clean of snow and leaves. Heavy amounts of snow on roof can damage the shed making it unsafe to enter.
- Although wind direction varies, it is an important factor when taking into account where to place your shed. Therefore, it is recommended to reduce wind exposure of the shed in general, and the door side in particular.
- Keep doors closed and locked to prevent wind damage.
- Do not stand on the roof.
- Shed not designed for habitation.

PRÉCAUTIONS ET SÉCURITÉ

- **En cas d’incendie, ne pas tenter d’éteindre le POLYpropylène brûlé avec de l’eau | Ne convient pas pour le stockage de substances inflammables ou caustiques**
- Il est impératif de monter toutes les parties selon les instructions. Ne pas omettre une quelconque étape.
- Veuillez consulter les autorités locales de votre commune pour savoir si un permis est nécessaire à la construction de votre remise.
- Vérifiez régulièrement la stabilité de votre remise et l’horizontalité de son site de construction.
- Il est fortement recommandé de fixer l’abri vers un objet statique ou vers le terrain par les trous de forage dans le sol aux endroits pré-marqués et insérer correctement les vis dans le sol (taille: 1,9”-3” , les vis ne sont pas inclus).
- Portez des lunettes de protection et suivez toujours les instructions du fabricant lorsque vous utilisez des outils électriques.
- Lavez la remise au tuyau d’arrosage ou avec un détergent doux. Utiliser une brosse dure ou un produit d’entretien abrasif risquerait de l’endommager.
- Des objets chauds tels que des grills non refroidis, des chalumeaux, etc. ne doivent pas être entreposés dans la remise.
- Ne pas déposer d’objets lourds contre les parois afin d’éviter tout risque de déformation.
- Maintenez le toit propre et dégagé de neige et de feuilles. De lourdes quantités de neige sur le toit peuvent abîmer la remise et rendre dangereux l’accès à l’intérieur.
- Bien que la direction du vent change, il est important de prendre en compte où l’abri est posé. Cependant, il est recommandé de réduire l’exposition de l’abri au vent en général, et de la porte latérale en particulier.
- Veillez à fermer les portes à clef pour éviter tout dégât provoqué par le vent.
- Ne montez jamais sur le toit.
- Abri non conçu pour habitation.

PFLEGE - UND SICHERHEITSHINWEISE

- **Im Brandfall sollten Sie nicht versuchen, brennendes Polypropylen mit Wasser zu löschen | Nicht zur Aufbewahrung von entzündbaren oder ätzenden Mitteln vorgesehen**
- Es ist äußerst wichtig, dass alle Teile der Anleitung zufolge montiert werden. Bitte lassen Sie keine Schritte aus.
- Falls Sie eine Baugenehmigung für den Gartenschuppen benötigen, wenden Sie sich bitte an die örtlichen Behörden.
- Überprüfen Sie den Gartenschuppen in regelmäßigen Abständen, um sicherzustellen, dass seine Stabilität sowie die Ebenheit seines Standortes noch gewährleistet sind.
- Es wird strengstens empfohlen, den Schuppen an ein unbewegliches Objekt oder am Boden zu verankern. Dies geschieht durch Bohren von Löchern an den markierten Stellen und das Verankern am Boden durch die richtigen Schrauben (Größe 1.9”-3” , die Schrauben sind nicht im Lieferumfang).

- Tragen Sie beim Gebrauch von Elektrowerkzeugen eine Schutzbrille und folgen Sie stets der Anleitung des Herstellers.
- Bitte verwenden Sie zur Reinigung des Schuppens einen Gartenschlauch oder ein mildes Putzmittel. Die Verwendung von harten Bürsten oder anderen ungeeigneten Putzgeräten kann das Material beschädigen.
- Noch heiße Gegenstände wie Grillgeräte, Fackeln usw. dürfen nicht im Schuppen aufbewahrt werden.
- Schwere Gegenstände dürfen nicht an die Wände angelehnt werden, da dies zu einer Verformung des Materials führen kann.
- Halten Sie das Dach frei von Schnee und Laub. Große Schneemengen auf dem Dach können den Gartenschuppen beschädigen und sein Betreten zur Gefahr werden lassen.
- Obwohl Windrichtungen wechseln, können diese bei der Wahl des Standpunkts Ihres Schuppens ausschlaggebend sein. Daher ist es empfohlen, die Windbelastung des Schuppen im Allgemeinen und der Türseite im Besonderen zu verringern.
- Zum Schutz vor Windschäden halten Sie die Türen geschlossen und verriegelt.
- Bitte das Dach nicht betreten.
- Schuppen nicht zum Bewohnen geeignet.

- Consulte a las autoridades locales si se requiere algún permiso para instalar el cobertizo.
- Verifique el cobertizo periódicamente para corroborar que esté estable y que el suelo esté nivelado.
- Se recomienda especialmente afirmar el cobertizo a un objeto inmóvil o al suelo, haciendo perforaciones en el piso, en los lugares previamente marcados, e insertando los tornillos apropiados en el suelo (tamaño: 1,9”-3” . Los tornillos no vienen incluidos.).
- Use anteojos protectores; al usar herramientas eléctricas, siga siempre las instrucciones del fabricante.
- Lave el cobertizo con una manguera para jardín o una solución que contenga un detergente suave. La utilización de un cepillo duro o de un producto de limpieza abrasivo podría dañar el cobertizo.
- Los objetos calientes -como por ejemplo, las parrillas recién usadas, sopletes, etc.- no deben guardarse en el cobertizo.
- Se recomienda no apoyar artículos pesados contra las paredes, pues esto podrá ocasionar deformaciones.
- Mantenga el techo libre de nieve y hojas. Grandes cantidades de nieve sobre el techo pueden dañar el cobertizo y hacer peligrosa la entrada al mismo.
- Aunque su dirección varíe, el viento es un factor importante a tomar en cuenta cuando decida dónde ubicar su cobertizo. Por lo tanto, se recomienda reducir la exposición al viento del cobertizo en general y del lado de la puerta en particular.
- Mantenga las puertas cerradas y trabadas para evitar los daños producidos por el viento.
- No se pare sobre el techo.
- El cobertizo no es apropiado para vivienda.

- Controleer het schuurtje regelmatig om er zeker van te zijn dat het stabiel blijft en dat de locatie waterpas blijft.
- Het wordt ten eerste aangeraden het schuurtje aan een onverplaatsbaar object of aan de grond te bevestigen door op de voorgemarkeerde locaties gaten in de grond te boren en de geschikte schroeven in de grond te plaatsen (afmeting: 1.9”-3”, schroeven zijn niet inbegrepen).
- Draag een veiligheidsbril en volg altijd de instructies van de fabrikant als u elektrisch gereedschap gebruikt.

- Warme voorwerpen zoals een pas gebruikte grill, branders, enz. mogen niet in het schuurtje worden geplaatst.
- Laat geen zware voorwerpen tegen de muren leunen. Dit kan misvorming veroorzaken.
- Houdt het dak vrij van sneeuw en bladeren. Grote hoeveelheden sneeuw op het dak kunnen het schuurtje beschadigen en de toegang ertoe gevaarlijk maken.
- Ofschoon windrichtingen variëren, is het belangrijk dat u rekening houdt met de plaats waar u uw schuurtje opstelt. Het wordt daarom aangeraden over het algemeen het schuurtje en vooral de deurzijde, zo min mogelijk aan wind bloot te stellen.
- Houdt de deuren dicht en op slot om windschade te voorkomen.
- Sta niet op het dak.
- Het schuurtje is niet voor woondoeleinden ontworpen.

- Rimuovere la neve e le foglie che si accumulano sulla copertura. Troppa neve potrebbe danneggiare il magazzino rendendone precaria la struttura.
- Sebbene la direzione del vento vari continuamente, è un fattore importante quando si prende in considerazione dove collocare il capanno. Quindi, si consiglia in generale di ridurre l’esposizione del capanno al vento, in particolare il lato della porta.
- Chiudere e bloccare le porte per evitare eventuali danni provocati dal vento.
- Evitare di rimanere in piedi sul tetto.
- Il magazzino non è stato progettato per fungere da abitazione.

- Artigos pesados não devem ser encostados ao abrigo de jardim, na medida em que podem provocar empenos da estrutura.
- Não deixe acumular neve ou folhas sobre o telhado do abrigo de jardim. Grandes quantidades de neve sobre o telhado podem danificar o abrigo de jardim e impedir uma utilização segura do mesmo.
- Embora a direcção do vento varie, é um factor importante que deve ter conta no momento de posicionar o abrigo. Portanto, recomenda-se que reduza a exposição do abrigo ao vento em geral e em particular do lado da porta.
- Mantenha as portas fechadas e trancadas para evitar danos provocados pelo vento.
