

**IMPORTANT**  
**TURN OFF THE POWER AT THE MAIN FUSE**  
**OR CIRCUIT BREAKER BOX**  
**BEFORE STARTING INSTALLATION**

**Carefully unpack and identify all parts before assembly. Bulbs are not included.**

1. Thread fixture wires and ground wire, exiting above coupler, through center pipe. Screw center pipe into coupler.
2. Thread fixture wires and ground wire, exiting above center pipe, through notched cap and fixture loop. Hook arms onto notches located at center body. Then lock arms into position by lowering notched cap onto center body and fastening fixture loop.
3. Fasten threaded stud securely into cap nuts. Set them aside.
4. Lay glass shade inside of ring. Then install ring onto bottom section of arms by fastening with assembled threaded stud. Make certain threaded stud and cap nuts are securely fastened.
5. Install bulbs (not included). See relamping label located at socket area for type and maximum allowed wattage.
6. Follow enclosed **“Chain Suspended Fixture Installation Instructions”** for electrical and fixture installation onto ceiling outlet box.
