

IMPORTANT
TURN OFF THE POWER AT THE MAIN FUSE
OR CIRCUIT BREAKER BOX
BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulbs are not included.

1. Thread fixture wires and ground wire, exiting above socket assembly, through center column. Then screw center column into socket assembly.
2. Install arms:
 - A. Install upper section of arms onto upper center body by fastening with small lock washer and hex nut from inside.
 - B. Install lower section of arms onto lower center body by fastening with cap screw.
3. Thread fixture wires and ground wire, exiting above upper center body, through top assembly. Then screw top assembly into upper center body.
4. Screw threaded pipe into bottom of socket assembly. Note correct position of threaded pipe at illustration.
5. Sit ring onto glass shade and then slip them through threaded pipe. Lock them into position by fastening with washer and hex nut. Do not over tighten.
6. Slip font and fasten finial onto threaded pipe.
7. Install bulbs (not included). See relamping label located at socket area for type and maximum allowed wattage.
8. Follow enclosed **“Chain Suspended Fixture Installation Instructions”** for electrical and fixture installation onto ceiling outlet box.
