MOLDED FOAM CORE

Polyurethane foam meets California Technical Bulletin #117 Flame Retardant Standards.

Cushions are manufactured with Progressive Support Technology (PST) which provides the right degree of cushion firmness, support and comfort for clients within 3 size ranges.

OUTER COVER (Not Shown)

Removeable, washable, stretch knit polyester with waterproof, vapor permeable polyurethane backing. Fabric meets California Technical Bulletin #117 Flame Retardant Standards. Bottom of cover is reinforced non-slip vinyl for safety.

PST SIZE RANGES

Firmness	Cushion Width
Soft	10" to 14"
Medium	16" to 18"
Firm	20" to 24"
