

INSTALLATION INSTRUCTIONS

Fixture Name: CLARION 6530-3P CH

For Chandelier Light Fixture

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER

HANGING THE FIXTURE (Fig.1)

- 1. Carefully remove the new fixture from the carton and the yellow bag that holds all parts. Check that all parts are included as shown in the illustration and parts list.
- 2. Shut off the power at the circuit breaker and remove old fixture from ceiling, including the old mounting strap.
- 3. Thread Nipple(C) into Canopy Loop (F) until snug then into the Mounting Strap (D).
- 4. Place Lock Washer (B) and Hex Nut (A) over end of Nipple (C) and thread onto Nipple until tight.
- 5. Take this mounting strap assembly and mount to ceiling junction box with junction box Screws (E). Tighten screws securely with screw driver.
- 6. Unscrew the Canopy loop collar (H) from the Canopy loop. Pass the canopy over the Canopy loop leaving some threads exposed. Adjust nipple(C) until desired height is reached. *the Canopy loop collar should fit snugly. Remove Canopy and Canopy lock collar.
- 7. Assemble the fixture and by measuring determine correct number of links needed for proper hanging height. Use a pair of pliers to open one link of the Chain then remove the excess and discard it.
- 8. Use one Chain connector (I) to attach one end of the chain to the Top loop (J) and close the chain connector.
- 9. Feed the fixture wires through the Chain (every three links) and pull the wires until taut.
- * Make sure the weight of the fixture will be supported by the chain-not the electrical wire.
- 10. Slip Canopy loop collar (H) over the chain, then do the same with the canopy (G). Attach the chain to the Canopy loop (F) with a Chain connector (I).
- 11. Thread the fixture wires and ground wire of the assembled fixture through the canopy loop (F) and nipple(C) into the outlet box.

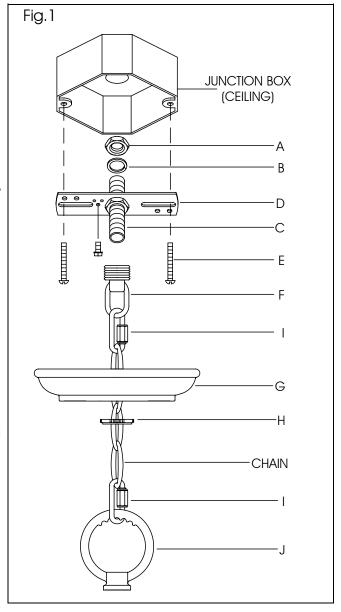

CONNECTING THE WIRES (Fig.2)

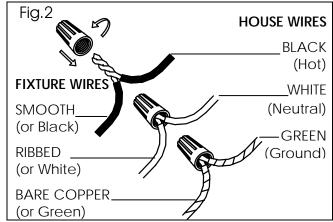

- 12. Attach the power supply wires to the fixture lead wires by connecting BLACK to BLACK (or SMOOTH) and WHITE to WHITE (or RIBBED).
- 13. Attach the GROUND wire (GREEN or COPPER) from the Junction Box and the fixture Ground wire to the green Ground Screw on the Mounting Bracket (B) or connect both wires together using the correct size of wire connectors.

NOTE: Twist the wires together in the same direction you twist the wire connector onto the wires.

- 14. Tuck these wire connections neatly into the Junction Box.
- 15. Raise Canopy (G) to the ceiling and secure in place by tightening the Canopy loop collar (H) into the Canopy Loop (F).
- 16. Install the light bulbs and glass shade as per the fixture assembly sheet.

YOUR INSTALLATION IS NOW COMPLETE. TURN POWER ON AT TO THE JUNCTION BOX & TEST THE FIXTURE.

PARTS & ASSEMBLY SHEET

Fixture Name: CLARION 6530-3P CH

This fixture assem	oled PO:	Date:

Notice: Please review the parts listing and check for all parts before assembling the fixture. If any parts are missing or damaged, please note on this sheet and contact the place of purchase to arrange for replacement parts.

FIXTURE ASSEMBLY INSTRUCTIONS Read and review installation instruction sheet before assembling the fixture

- Place Arm (C) onto the Body (A) and attach at the top with Ball Nut (B) and washer.
 Center the ring (H) at the bottom of the arms and secure with Ball Nut (B) and washer.
- 2. Place Crystal (D)&(E)&(F) onto the Body (A) as shown.
- 3. Install the bulbs as specified. (no bulbs included in the package) (Do not exceed the maximum wattage rating!)
