

Replacement Water Filter (HAFCU1/XAA)

Product Description

The Samsung HAFCU1/XAA Replacement Water Filter is used to replace the original water filters in Samsung refrigerators. It provides clean, fresh-tasting water and ice from dispensers, while its slim design allows for easy installation and removal without the use of tools. This NSF certified filter reduces cysts, chlorine tastes and odor, particulates, heavy metals and chemicals, and mercury from your water, while still retaining important additives such as fluoride.

- Replacement water filter for French door and some side-by-side refrigerators
- Provides clean, fresh-tasting water
- Meets NSF 42 standards for chlorine odor and taste reductions
- Meets NSF 53 standards for cysts, turbidity, lead, asbestos, benzene, carbofuran, and mercury
- No tools required for installation
