

Ionic Pro[®] Car Ionizer Instruction Manual

Please read the following instructions and safety warnings carefully before use. For more exciting Ionic Pro[®] products, please visit www.envionproducts.com today. Now get ready to enjoy the many benefits of refreshing ionized air!

Features

- Enjoy refreshing ionized air in complete silence in your vehicle with the Ionic Pro[®] Car Ionizer.
- Produces ionized air, which is also produced by water falls and pounding surf.
- LED power-indicator light illuminates to let you know your air is being freshened
- Operates on 12 volt outlet of your car's cigarette lighter
- No filters to replace
- Low energy consumption

Operating Your Ionic Pro[®] Car Ionizer

- Insert the unit's plug into your car's cigarette lighter socket, making sure the connection is secure. Angle the unit into the position that is most convenient for you.
- Turn the unit on by sliding the power switch to the **ON** position. The LED indicator will illuminate to let you know that the ionizer is working.
- **Remember to slide the power switch to the OFF position anytime you want to turn the unit off, or before exiting your vehicle, this will prevent your battery from being drained when your vehicle is not running.**

Safety and Maintenance

- **This unit must only be used with DC 12V electric sources.**
- **Ensure the unit's external grills are kept free of debris to allow optimal ionizing. Simply wipe external surfaces clean with a dry cloth.**
- **Do not immerse in water or allow water near or inside of unit.**
- **Do not disassemble this product. There are no user serviceable parts.**
- **Do not use this unit near flammable materials.**

Specifications

Voltage: 12V
Power Consumption: max 0.3W
Product Dimensions: 6.5" x 2.25" x 2"
Weight: 2.5 oz.
