## **ASSEMBLING & INSTALLATION INSTRUCTIONS FOR PRODUCT#7517 7516 For Ceiling Mount Light Fixtures** WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER. **MOUNTING THE FIXTURE (Fig.1)** Fig.1 1. Shut off the power at the circuit breaker box. Remove old fixture and all hardware from Junction Box. 2. Carefully unpack your new fixture and lay out all the parts Junction Box on a clear area. Take care not to lose any small parts (Ceiling) necessary for installation. A 3. Thread the pipe screw(C) part way into the center hole of В the single bar(D) and lock it with the hex nut(A). C D Attach the single bar to the junction box using two box Ē screws(E). The side of the single bar marked "GND" must face out. While holding the plate (F) assembly towards the ceiling, 5. connect the electrical wires as Shown in Fig.2, making F sure that all wire nuts are secured. You may have to wrap the connections with electrical tape. If your outlet has a ground wire (green or bare copper), connect the fixture ground wire to it. Otherwise connect fixture's ground wire directly to the Mounting strap with the green screw provided. After wires are connected, tuck them carefully inside the Junction Box. Н 6. Raise plate (F) to the junction box, aligning pipe screw on single bar with center hole in plate and lock it securely with the ball nut (G). 7. Install the light bulbs in accordance with the fixture's specifications. NOTE: DO NOT **EXCEED** THE SPECIFIED WATTAGE. 8. Attach the glass(H) to the glass frame(I), and raise the glass frame(I) to the plate(F), and then lock it securely with the screws (J) until sung. Your installation is now complete. Return power to the junction box and test the fixture.
