

Installation Instruction

For Floor Lamp
ITEM #8478-57

WARNING

- * Risk of shock, do not plug the unit before assembly.
- * Do not exceed the maximum wattage rating.

FIXTURE ASSEMBLY

1. Carefully remove the fixture from the carton and lay it down over a clean soft surface (blanket or rug) to prevent damage to the finish.
2. Attach center part (H) to lamp base (I) and turn clockwise until firmly tightened.
3. Connecting the center part (G) to part (H) and turn clockwise until firmly tightened.
4. Carefully pull the wire cord through the bottom of base (I) till part (D) can be screwed onto part (G). Please pay attention not to cause wire cord damage pulling.
5. Install the lamp body (D) to center part (G) and turn clockwise to tighten.
6. Install a 7W light bulb and attach the glass shade (F) to the center of the lamp body (D) using the screws (E).
7. Squeeze the harp (C) together and insert into the harp holder (D).
8. Install a 150W light bulb, place shade (B) on top of harp and secure with finial (A).

IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter the plug.
