

Telly the Teaching Time Clock

Let Telly The Teaching Time Clock help your child learn to tell both analog and digital time using two quiz modes. In the learning mode, Telly teaches time in five minute increments by moving his hands and updating his LCD screen. In the quiz mode, Telly asks your child move the hands on his face to match the time displayed on his screen. Telly also features a night-light and comes with a fun digital watch. Learning to tell time has never been so much fun. Requires three "AA" batteries (included) or an optional 4.5V adapter - 582350 (not included). Ages 3+ years.

Telly Item# 105337

Telly (pink) Item# 111581
