OPERATING INSTRUCTIONS

Your Body Benefits® Heated Massaging Seat Cushion is designed to be used in your home or office. We have provided an AC adapter, for use in 120 volt outlet. For your safety, please use only the adapter provided with this massager. Elastic straps are attached to the seat, which allows you to securely fasten the massager to almost any chair.

This massager has been designed for ease of operation. To create your own custom massage, follow these easy steps: With all the slide switches on the hand control in the off position, connect the power cord to the hand controller. There are 4 switches on the hand control. The TOP 3 SWITCHES control the vibrating motors:

1st switch	SHOULDER
2nd switch	LOWER BACK
3rd switch	SEAT

Each slide switch has an OFF position and 3 massage strength settings: – LOW, MED (Medium), and HI. Try each motor setting to create the custom massage you desire.

The BOTTOM SWITCH is the ON/OFF heat control. Slide the switch to the right to activate the heat in the middle section of the back. *Please note: As one of the built-in safety features, you must be using the Heated Massaging Seat Cushion for the heat circuit to be activated. Therefore, you cannot “preheat” the massaging system.* After using, return all switches to the off position, and disconnect power before storing.
