

Full Defense™ Fungicidal Protective Coating (40-25)

*High coverage, breathable coating!
Shields against mold and mildew!*

Continuous Defense™ Fungicidal Protective Coating (40-20)

*Ultra-flexible, highly resilient coating!
10+ years of proven performance!*

**THE Products of Choice by
Mold Remediation Professionals!**

NEW!

- The ideal product for residential and commercial mold remediation projects
- The only EPA registered product that kills residual mold and mildew and protects surfaces from mold re-growth
- Low viscosity, high solids formulation provides extended coverage with excellent hiding properties in one, easy application (covers up to 300 sq. ft./gallon)
- Zero growth on aged and un-aged films (ASTM D-5590)
- Long term fungicidal activity with high % active ingredients
- Apply to wood framing, drywall and other building materials for complete mold remediation
- 10-year limited warranty
- Contributes to LEED® EQ Credit 4.2

- The first and only EPA registered coating for use in HVAC systems with over 10 years of proven effectiveness!
- Prevents the growth and spread of odor causing bacteria and mold on its surface
- Tough, flexible, crack resistant film is ideal for protecting HVAC duct liners
- Moisture and scrub resistant film also makes it ideal for use in institutional and industrial facilities (such as food and beverage processing plants, pharmaceutical plants, hospitals, etc.)
- 10-year limited warranty
- Contributes to LEED® EQ Credit 4.2

BEFORE

AFTER 10 YEARS

Interior Defense™ Mold Resistant Coating (40-50)

- High-solids, low viscosity and low-odor formulation
- Use in high humidity areas prone to mold growth
- Apply to wood framing, drywall and other building materials found in wall cavities, crawl spaces, attics and other high humidity areas
- Contains EPA registered antimicrobial additives that protect its surface from the growth of odor causing bacteria, mold and mildew
- 5-year limited warranty
- Contributes to LEED® EQ Credit 4.2

Clear Defense™ Exterior Mold Resistant Coating (40-55)

- Specifically designed to maintain aesthetics of exterior (and interior) residential, commercial and industrial surfaces
- UV resistant coating repels water and dirt
- Formulated with EPA registered additives for long-term resistance to the growth of mold, mildew, fungus and algae on its surface
- Ideal for use on masonry, stucco, concrete, clay tiles, asphalt, gypsum board, cement blocks, other construction materials, and more
- One coat application
- 5-year limited warranty
- Contributes to LEED® EQ Credit 4.2

Sheer Defense™ Mold Resistant Clear Sealer (40-51)

- Dries clear – ideal when underlying substrates need to remain visible
- Water resistant finish is flexible and crack resistant
- Formulated with EPA registered additives to provide protection against mold and mildew growth
- Apply to wood framing, drywall and building materials found in wall cavities, crawl spaces, and other places prone to mold growth
- 5-year limited warranty
- Contributes to LEED® EQ Credit 4.2

First Defense™ Disinfectant and Cleaner (40-80)

- The first step in mold and mildew clean-up
- Effective against a broad spectrum of bacteria and mold (virucidal and fungicidal)
- Deodorizes by killing micro-organisms that cause offensive odors (i.e. caused by flooding or smoke from fires)
- Ideal for water damage restoration projects in residential, commercial/institutional and industrial spaces
- Ready-to-use
