PEDAL EXERCISER

ADJUSTABLE RESISTANCE LIGHT-WEIGHT PEDAL EXERCISER

10-0710

**USE FOR
ARMS**

**USE FOR
LEGS**

Portable lower and upper body exerciser. Use when exercise bicycle is not available or is contra-indicated. Wide leg spread and rubber non-marring feet keep exerciser stable even when patient has little muscle control. Wrap around adjustable footstraps for use with or without shoes.

ADJUST THE RESISTANCE

Turn the tension knob to adjust the pedal resistance. Turn clockwise toward "High" to increase the resistance (makes pedaling more difficult) or counter-clockwise towards "Low" to reduce the resistance (makes pedaling easier).
