

PEDLAR®

Light Workout Exerciser

Convenient, portable design makes it perfect for exercising at home or in the clinic

Build or maintain strength, endurance and range of motion in either arms or legs, with no jarring action that can further inflame painful joints and muscles.

- **Adjustable tension** to gradually increase the amount of effort required, allowing even the most debilitated user to begin building stamina in legs or arms.
- **Sturdy wide-base design for stability and durable, heavy-duty steel frame** provide dependable long-term use for a variety of exercise needs.
- **Exclusive Fits-Right™ pedal** on both the Original Pedlar® and Pedlar Pro™ features a wide Velcro® strap to accommodate even bulky orthotic footwear and insure a smooth motion.
