

DARCO® SOFTIE SHOE

Light and Soft Post Operative Shoe for Soft Tissue Procedures

The Darco Softie Shoe was designed specifically for use after soft tissue procedures or trauma to the foot. This shoe is a very good solution for those looking for a comfortable, low cost, post operative shoe.

Special Features:

- Very soft, breathable upper is made of a poly-cotton blend that conforms to bony abnormalities of the foot and provides cool comfort for patients.
- Time tested semi-rigid sole with MetaShank™ permits enough flexibility to ambulate, while protecting the metatarsal head.
- Easy closure- two Velcro® straps allow for easy entry/exit and fastens anywhere along the surface of the soft upper for even compression and security.

If you want to pamper your feet during the recovery process, choose the Darco Softie!
