

**SPENCO®  
Bed Pad**

Helps make any bed more comfortable by reducing pressure. Hospital bed size.

#31-005 78" x 36"  
(198 cm x 91 cm)

**SPENCO® SILICORE®  
Padding Products**

are available in four designs to cushion and protect all pressure-prone areas of the body. Each product is made with SPENCO® SILICORE® Fibers, unique siliconized hollow core shafts that don't mat down, retain their loft and allow air flow. The silicone coating lubricates each fiber to reduce friction and shear force while preventing moisture penetration or retention.

The breathable cotton/polyester fabric is fully washable, dryable, and radio-translucent. SPENCO® SILICORE® Padding Products pass the requirements described in 16 CFR Part 1632 Standard for the Flammability of Mattresses and Mattress Pads, (FF 4-72, Amended). Bed, Full Wheelchair and Chair Pads are also reversible with a moisture resistant nylon on the other side.

**SPENCO®  
Foot Positioner\*\***

Closed cell vinyl/nitrile foam coated with washable vinyl material is designed to hold ankles in position whether lying down or sitting up.

#31-609 - 1 Foot Positioner

**SPENCO®  
Foot Pillow\*\***

Provide relief of pressure for the feet, heels and ankles whether in bed or wheelchair. One size fits all with Hook and Loop Closures.

#31-559 - 2 Foot Pillows  
#31-585 - 1 Foot Pillow

**SPENCO® Full  
Wheelchair Pad**

Protects arms, torso and entire sitting surface.

#31-252

**SPENCO®  
Chair Pad**

Make any chair, seat or car sitting surface more comfortable. Fits 17" x 17".

#31-351 43 cm x 43 cm

### Breathable Cover -

Cotton/Polyester cover provides maximum cool comfort

### Long Lasting, Washable - (in commercial washer)

Provides years of service.

### Soft-Tex Denier Nylon -

is a soft, pliable material with very low shear and excellent fluid resistant properties. This combination of softness and low shear will help reduce further injury to the skin. Reversible for those times when moisture resistance is necessary.

### Target User -

Non-ambulatory patients of all ages who have a low to moderate risk of getting pressure sores. For hospital and home care.

### Product Description -

SPENCO® SILICORE® Fiber Products are made from cylindrical hollow core fibers with siliconized shafts. Covered on one side with cotton/polyester. The product group includes a bed pad, which fits a twin size bed or hospital bed, a full wheelchair cushion with ties, seat cushion and foot pillow. Foot pillows are one size fits all, with Hook and Loop closures.

### General Construction -

SILICORE® Padding fibers have a permanent silicone coating attached which prevents penetration of chemicals or moisture such as urine or feces. Therefore, since the fibers are not penetrated, routine laundering should provide a safe environment for any succeeding patients.

### Superior Padding -

Hollow core construction prevents fibers from matting, thus dispersing pressure over a greater area, lowering vulnerability to pressure sore development.

### Silicone Coated Fibers -

Silicone coating lubricates each fiber to reduce friction and shear force while preventing moisture penetration or retention.

### Flame Retardant -

Complies with requirements described in 16 CFR Part 1632 Standard for the Flammability of Mattresses and Mattress Pads, (FF 4-72, Amended).

**Care:** The manufacturer's recommendations for care and cleaning of SPENCO® Silicore® Fiber Padding is as follows:

**Washing:** Can be washed in any commercial washer using a standard detergent. Do not exceed temperature of 70° Centigrade or 160° Fahrenheit.  
DO NOT BLEACH.

**Drying:** May be dried in a standard commercial dryer not exceeding a temperature of 107° Centigrade or 225° Fahrenheit.
