

XT-V3 (44)" (Black Oak)
(with center tube installed)

NOTE: All XT-V3 (44)" video units include the necessary hardware to allow you to assemble the unit with or without the mid-shelf center tube (for center-channel considerations).

XT-A4 (Black Oak)

XT-V3 (44)" (Black Oak)
(without center tube installed)

XT-AA1 (Black Oak)

To compliment your system, we suggest adding our speaker stands (refer to the Speaker Stand section for details).

MODULAR AUDIO/VIDEO RACKS

THE XT SERIES The XT Series has been built for the serious connoisseur who recognizes the importance of bringing an aesthetic touch and grand functionality to a room. The XT Series design makes it possible to turn all of your audio/video components into the Ultimate Furniture Design System. The XT - Video Series is designed for the current generation video monitors. The XT-V3 (44)" can handle even the heaviest and highest end video equipment. Curved and shaped 3/4" [19mm] shelves that are available in natural wood - Black Oak (B).

Strong heavy gauge 2" x 2" [51mm x 51mm] steel tubes create a rack system that is extremely strong and rigid. This priceless gem is a beautiful and magnificent combination of strength, style and versatility. It's a must for those who only accept the best.

XT-AA1 add-on units and casters are also available.
