

Catalog Information

Model	Description	Volt/ Lamp	Max Watt
HR-8402E	New Construction Housing, electronic transformer, Non-IC	120V to 12V/ MR16	50W

Product Features

Application: New construction housing for installation in ceilings and suspended grid ceilings. Requires minimum 3" clearance from insulation. Fits 6" joist ceilings.

J Box: Junction box and transformer are accessible through the ceiling opening. Box contains seven 1/2" knockouts and, four integral Romex® connectors. Suitable for branch wiring.

Transformer: Supplied with pre-wired snap out integral electronic transformer 120 to 12V.

Dimming: Dimmable with electronic dimmers, and generally works with most standard incandescent dimmers.

Thermal Protector: Located inside the can, protects against over-lamping.

Mounting: Supplied with hanger bars, adjustable to 24" and "are scored" to accommodate 12" joist construction. Hanger bars have slots for easy mounting on "T" bars.

Socket: Included, Bi-pin ceramic with 18 gauge Teflon insulated wires, with fiberglass sleeves.

Material: 20 gauge galvanized steel.

Material

Steel
