Ordering Example (model number – part number – finish): LM-JS-DB

Track Connectors

<p>X Connector LM-XDEC-color</p>		<p>Jumper Set LM-JS-color</p>	
<p>Description Connects four sections of rail without electrical continuity. Allows seamless connection of rail sections. Available in Designer Dark Bronze (DB), Chrome (CH), or Brushed Nickel (BN)</p>	<p>Description Connects two sections of rail with electrical continuity. Allows separated sections of rail to be powered from a single feed location. Available in Designer Dark Bronze (DB), Chrome (CH), or Brushed Nickel (BN).</p>		
<p>Quick-Connect Adaptor LM-QADP-color</p>		<p>Extension Rod LM-R12-color LM-R24-color LM-R36-color LM-R48-color</p>	
<p>Description Solorail™ system Quick Connect™ adaptor allows all Quick Connect™ elements (QF track heads or QP pendants) to be used with the LM system rail. The adaptor contains a threaded nipple for Quick Connect™ socket sets and attaches anywhere along the LM track. One adaptor must be ordered for each Quick Connect™ element used on a system. Available in Designer Dark Bronze (DB), Chrome (CH), or Brushed Nickel (BN).</p>	<p>Description Used to extend suspension standoffs and power feed canopies. Extending suspension standoffs requires one LM-R and one LM-X. The LM-CPC and LM-WPC power feeds require two LM-R's for extension, and the LM-DCPC requires four LM-R. The LM-R Extension Rods come in lengths of 12", 24", 36", 48" and can be field cut to other lengths as well as extended to longer lengths with the use of the LM-RI coupler. Available in Designer Dark Bronze (DB), Chrome (CH), or Brushed Nickel (BN).</p>
