Track Suspension Kit — Model SK18, SK24, SK36, SK48

Description: Used to suspend any of our line volt track systems from a ceiling or dropped ceiling. Kit consists of a ceiling canopy, down rod and track bracket. Canopies come with hardware to mount to either a junction box or ceiling surface. Drop grid ceilings require T-Bar clips. Rod allows power feed wires (up to three 12 gauge wires) through the center, and supports the weight of the track. Rods should be positioned over a power component such as a live end or "I" power connector.
Supplied: Parts and instructions included
Finishes: Black or White
Listing: UL and CUL listed, New York City Approved

Swivel Adapter — Model SK-14

Description: Swivel adapters allow suspension rods to drop straight from a sloped ceiling. Adapter is installed between the canopy and down rod. Can accommodate three 12 gauge wires.

Finishes: Black or White
Listing: UL and CUL listed, New York City Approved

Adapter Kit — Model SK05

Description: Adapter kit for field cutting of suspension rods. Allows height adjustment without re-taping. One kit of 2 required for each down rod.

Finishes: Black or White
Listing: UL and CUL listed, New York City Approved
