

#### REMOTECNPDIRDFSC-LED

4" dual feed.

### Canopy Options

When using a remote transformer, a remote canopy is necessary. Power feed canopies are mounted to the ceiling or wall parallel to a rail run. Location can be anywhere along the rail.

FUSION 4" ROUND CANOPIES mount to a standard 4" electrical J-Box with round plaster ring (provided by electrician).

### Direct Power Feed Canopies

(for use with remote transformers)

Allows for closest-to-ceiling possible mounting of monorail with a remote transformer. All dual-post rail connections are separated by an isolated connector (ISOCNNECTORCL-M, included).
