

Large Bulk Head (Compact Fluorescent)

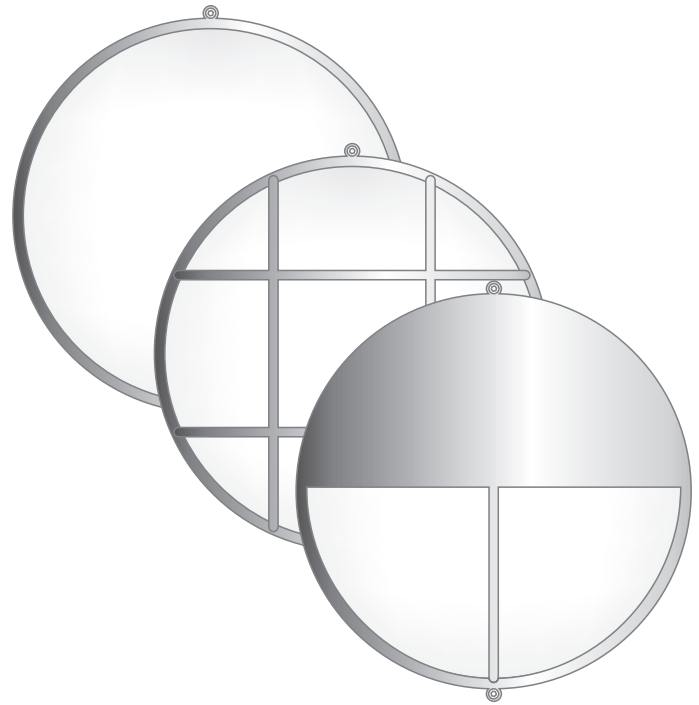

523_C_HE, 524_CHE,
5177C_42T 1.0

GENERAL PRODUCT INFORMATION:

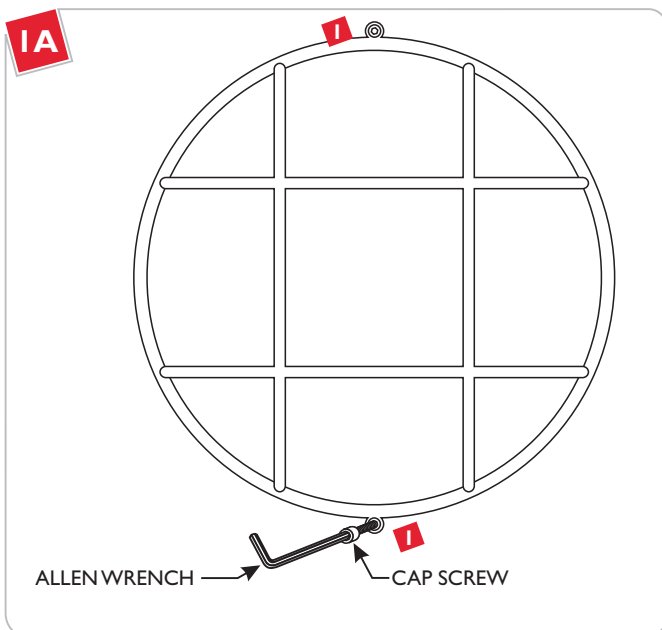

This product is suitable for wet locations.

This instruction shows a typical installation.

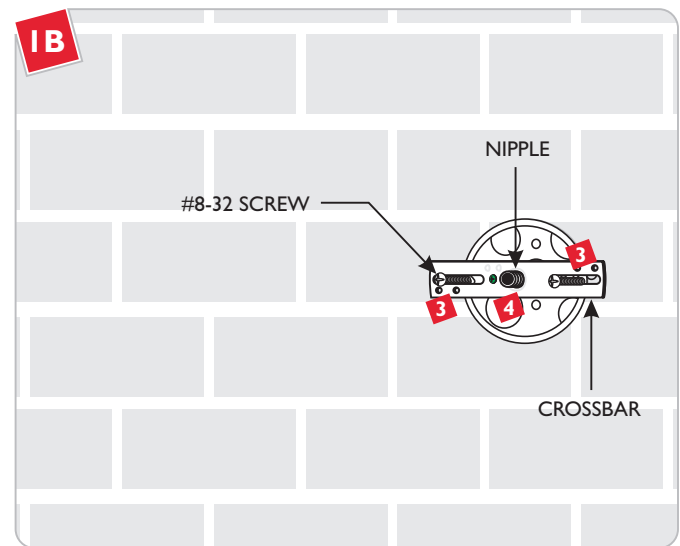

CAUTION - RISK OF FIRE
This product requires installation by a qualified electrician. Before installing be sure to read all instructions and **DISCONNECT POWER TO THE ELECTRICAL BOX.**

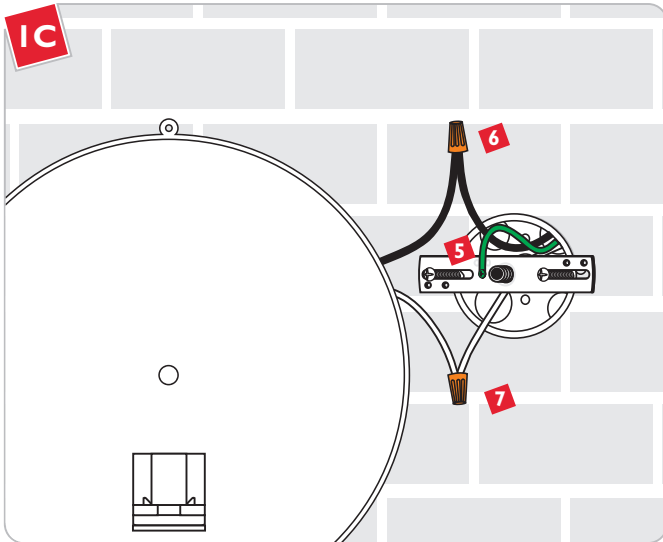

Install the Fixture

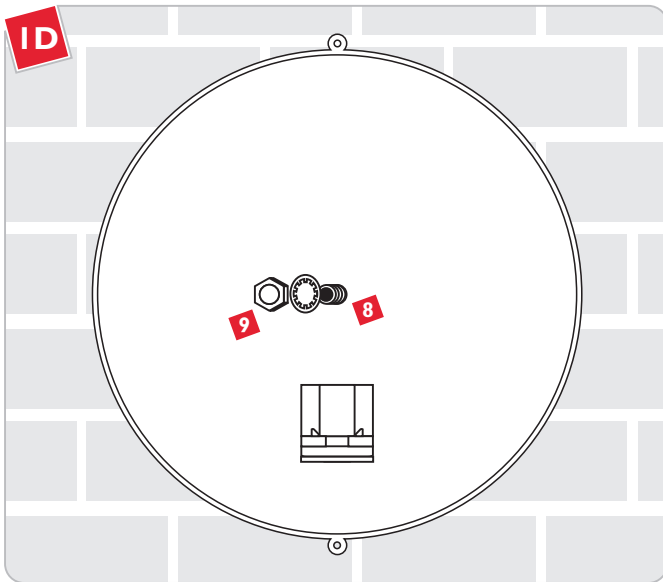

- 1** Remove all the cap screws from the front of the fixture.
- 2** Lift the shade off of the fixture.

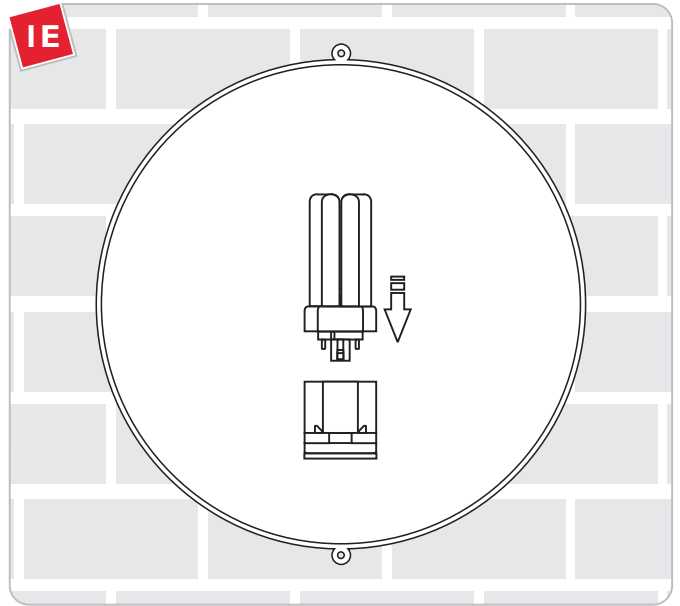

- 3** Attach the crossbar to the electrical box using the two #8-32 screws provided.
- 4** Loosen or tighten the crossbar nipple so it protrudes 1.5" from the crossbar.

- 5** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 6** Connect the black fixture wire to the hot power line wire with a wire nut.
- 7** Connect the white fixture wire to the neutral power line wire with a wire nut.

- 8** Slip the hole in the center of the fixture onto the nipple.
- 9** Make sure the fixture is level, and secure the fixture to the nipple with a lock washer and nut.

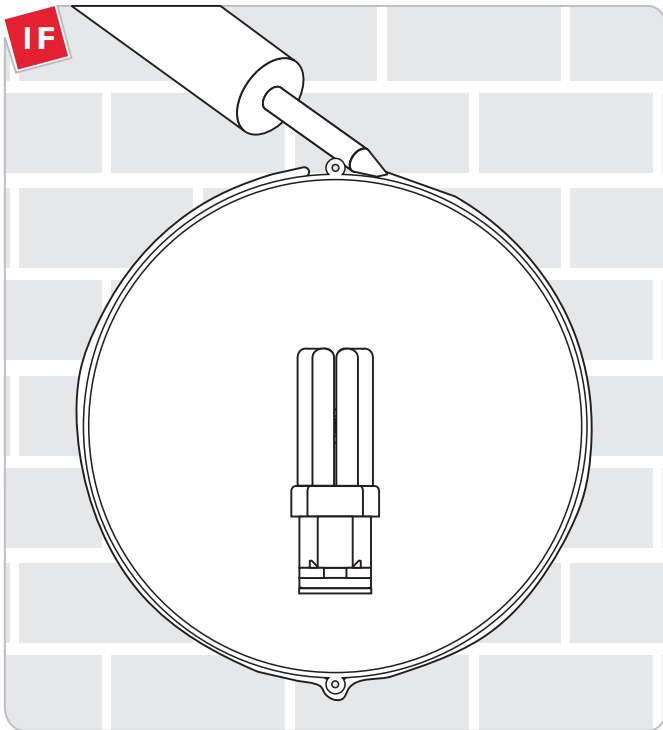

CAUTION: To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture.

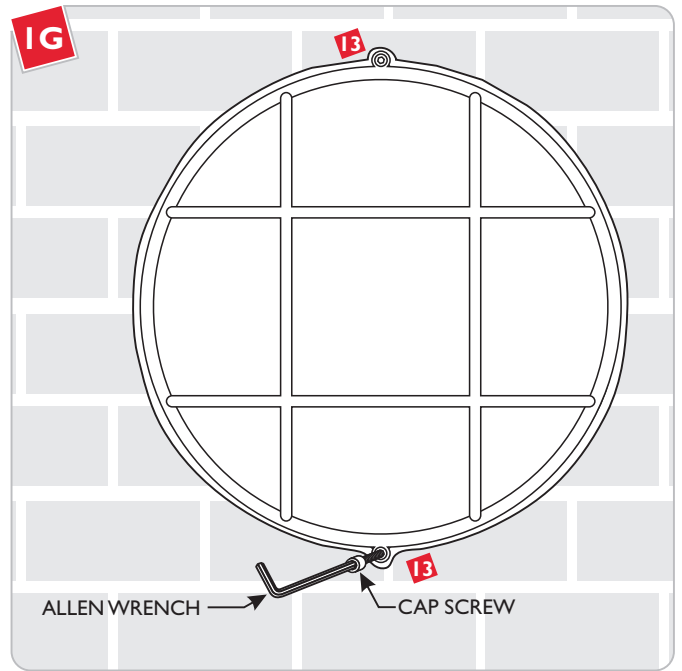

Use **MAX 42 Watt** type triple tube G24Q-4 base compact fluorescent lamp.

- 10** Push the lamp base completely into the socket.
- 11** Before continuing, turn on power to the fixture to verify all connections are good.

1F If installing in a wet location, caulk around the base with waterproof construction sealant.

1G Replace the shade and tighten the cap screws to secure the shade to the fixture.
