

led illuminated monorail direct feed flush electronic transformer 60w 120v/12v led

DESCRIPTION

Allows for closest-to-ceiling possible monorail mounting. This direct feed flush electronic transformer is encased in a finished housing and can be used to power lamps totalling up to 60w and is equipped with fast-acting short circuit and overload protection that will safely turn off the system should a short occur. Once the short is removed, the unit can be reset by simply flipping the wall switch off and back on. Dimmable with a 600w low-voltage electronic dimmer.
