

led illuminated monorail direct feed surface magnetic transformer 300w 277v/12v

DESCRIPTION

Allows for closest-to-ceiling possible monorail mounting. This direct feed surface magnetic transformer is encased in a finished housing and can be used to power lamps totalling up to 300w and is equipped with a fast-acting secondary circuit breaker that will safely turn off the system should a short occur. Once the short has been removed the breaker can be reset. Dimmable with a 600w low-voltage magnetic dimmer.
