**Features**

All purpose xenon undercabinet light with a compact design and low profile. The housing is 1-5/16" deep by 4" wide, is available in various lengths and includes a high/low switch. The line voltage unit includes 20 watt lamps and is linkable or direct wire. Specular reflector provides maximum light output. Dimmable with standard wall dimmer. Accessories include a 5'3 wire cord and plug, 12" connecting cable and BX and NM cable connector. Quick wire connectors allow for easy hard wire installation. Full size knock outs are located on the top and back. Ends include connector for linkable system up to 560 watts. Applications include kitchens, study areas and displays.

**Construction**

Housing is die-formed of 22-gauge steel. Separate hingeable service tray allows for easy installation and snaps into position without hardware. Power connections are made inside service tray or with included cord and plug.

**Finish**

All exposed metal parts are post painted lighting grade white gloss enamel paint or applied oil-rubbed bronze.

**Diffuser**

Clear tempered textured glass is .100" thick and slides into housing.

**Electrical**

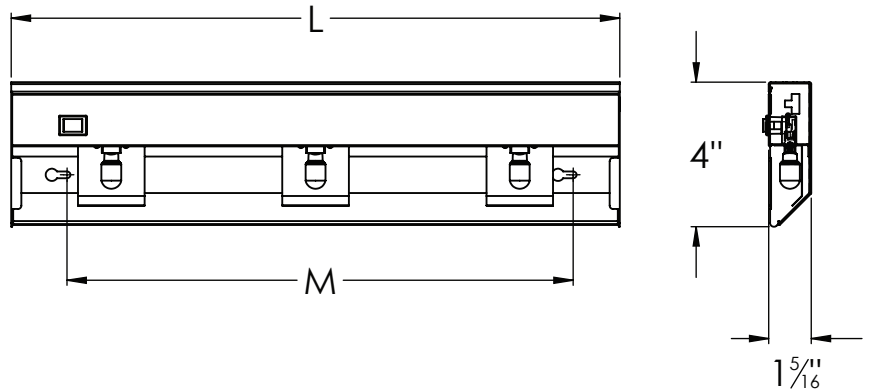

This unit is wired for 120V operation. High/low switch included.

**Lamping**

For use with 20 watt 120V G8 bi-pin xenon lamps included. Lamps are rated for 5,000 hours.

**Certification**

Fixtures are cULus listed for damp locations and carry a UL rating for undercabinet mounting.
