

PLM SERIES CABINETS

With high-quality construction for dependable operation and modular components that allow for design creativity, PLM Series cabinets by Robern offer reliable performance and enduring visual appeal. The SAFESEAL™ gasket featured on these cabinets ensures years of moisture- and dust-free functionality, and interconnecting hardware and attached light fixtures allow precise assembly and perfect alignment for up to four cabinets and lights.

PLM SERIES CABINETS

FEATURES

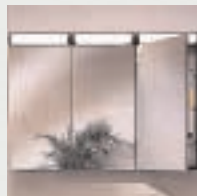

- Rust-free aluminum construction
- SAFESEAL™ gasket frame
- Three-way adjustable concealed hinge systems
- Three adjustable glass shelves
- 1/2" beveled or plain mirrored door
- Mirrored interior doors and cabinet
- White or black interior with 4" depth
- Choice of three widths: 16", 20" and 24"
- Door opening angle: 170°
- Concealed surface-mounting system
- Matching modular light fixtures
- Choice of over 30 models
- Two door styles: flat and arched

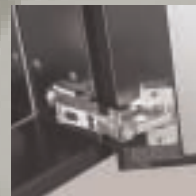

Designed without sharp corners, the SAFESEAL gasket ensures quiet, moisture- and dust-resistant operation.

Aluminum resists the intense moisture of the bathroom environment, ensuring long-lasting beauty.

Modular design lets you mix and match styles, lights and sizes for the look you want.

Adjustable, heavy-duty hinges open to 170°. The PLM3030 and PLM3630 open to 100°.

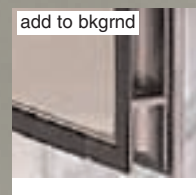

1/2" beveled plain exterior and double interior mirrors offer convenient ways to use your cabinet with the door open or closed.

Three adjustable glass shelves help keep the interior of your cabinets organized.

Cabinet and lights can be recessed or surface-mounted with optional side kit. Mirrored side kit blends well with any wall surface.

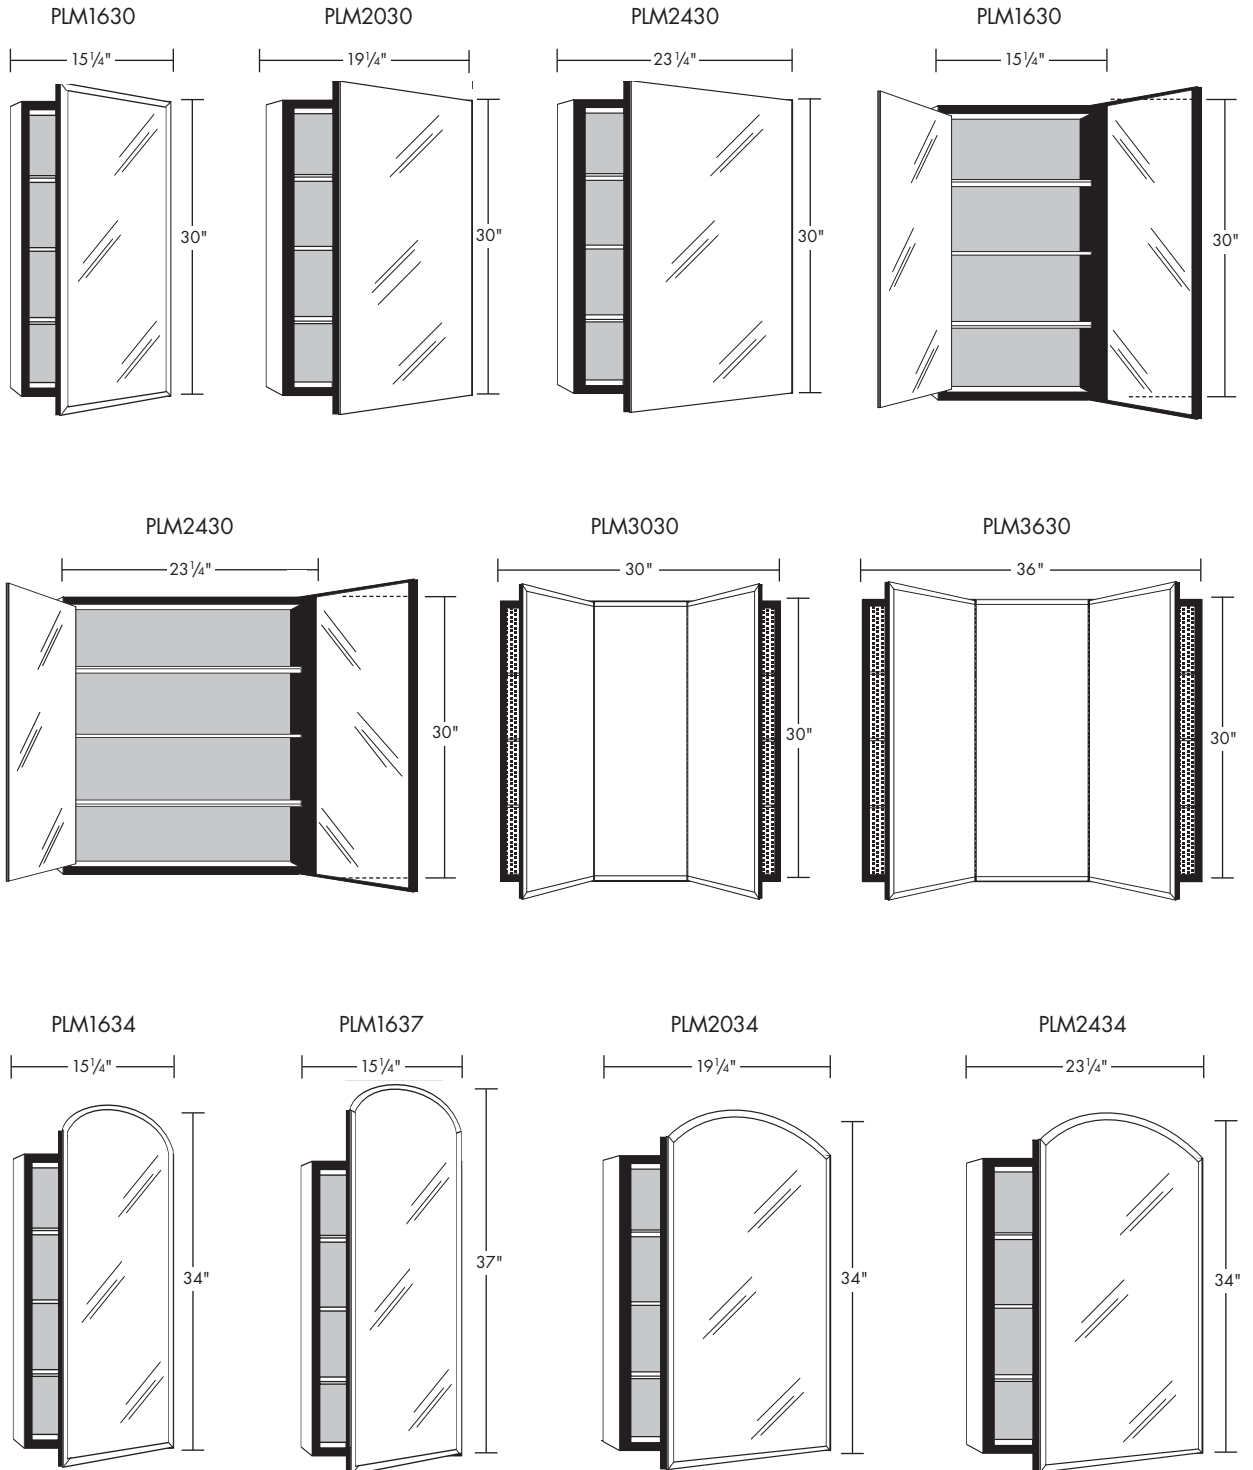

A smooth, easy-to-grip finger pull surrounds the edge of each door.
