Part List – SLB

- A. Lock Box Door with Lock
- B. Aluminum Shelves
- C. Plastic Shelf Locks
- D. Grey or White Shelf Supports
- E. Hinge Pins
- F. "Robern" Keys

1 Pick the space in your cabinet to install the lock box.

A. The lock box uses 3 rows of hinge holes as shown.

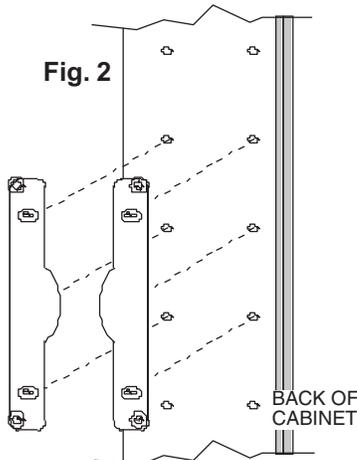

B. The lock set (grey or white plastic) position may interfere with the swing out magnifying mirror on M Series cabinets. The lock box can be installed to avoid this mirror.

2 Install the 4 shelf supports (2 per side)

A. Be sure the rounded sides are facing towards the center of the cabinet as shown.

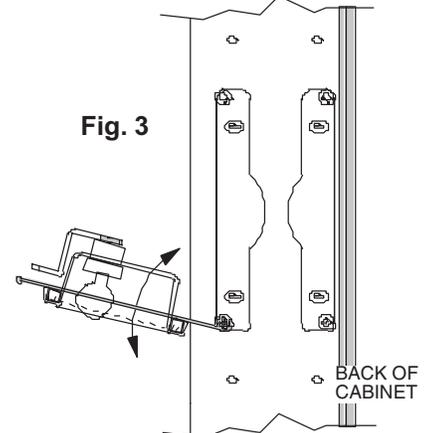

B. The shelf supports may fit tightly. If necessary, tap in lightly with a small hammer.

3 Install the lock box door

A. Lock box door is installed using the hinge pins

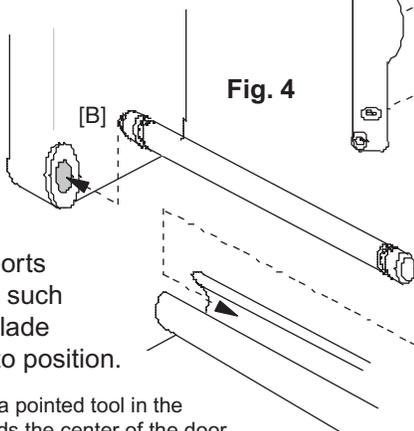

B. See figure 4 for hinge pin installation

4 Install the hinge pins first into the lock box, then the shelf support.

A. Slide the hinge pins in all the way until they are flush with the edge of the lock box door.

B. Slide the pins into the shelf supports using a thin object such as a screwdriver blade until they "click" into position.

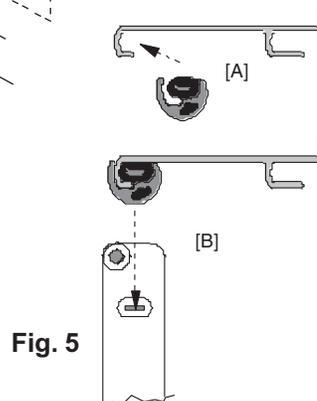

Note: To remove pins, use a pointed tool in the groove, push the pin towards the center of the door.

5 Install the 2 shelf locks on the top shelf only before installing

A. Slide the locks on the shelf

B. Once the top shelf is installed, the shelf lock will slide into the shelf support.

Push in firmly to seat the shelf lock

6 Install the lock box shelves.

The shelves lock the system in place and set the lock cam.

A. Install the shelves as shown.

B. Slide the shelf locks into the shelf supports as shown in #5

C. Test the lock. The key will only remove in the locked position.
