

A Lifetime of Quiet

MADE IN THE USA -
THE COMPLETE
FLOORMUFFLER®
SYSTEM

**Warranted, environmentally-
friendly, and strong.**

- Warranted system for double glue down applications
- Environmentally-friendly adhesive system with low volatile organic compounds
- Minimizes cure times allowing for quick installations
- Ensures a strong permanent, water-resistant bond

AT
DIVERSIFIED
FOAM
PRODUCTS, we
believe it our responsibility
to give back to the
community. Along with
other flooring industry
leaders, we support *The
Floors for the Cure* Foundation to provide critical funding for organiza-
tions that are committed to the prevention, treatment and cure
of serious diseases. A percentage of every FloorMuffler® sale
(totaling at least \$250,000) will be donated to the Foundation
which will support non-profit organizations such as *Susan G.
Koman for the Cure, Cancer Care, and the Breast Cancer
Research Foundation.*

- Superior moisture barrier
- Mold and mildew resistant
- The only underlayment with *Advanced Cell Technology™*

We support
The
Floors
for the
Cure
FOUNDATION
Laying the foundation for a healthier future.

A sound investment

The FloorMuffler® is the finest, most respected, and most effective acoustical underlayment and moisture protection barrier on the market.

Utilizing state-of-the-art technology that employs high-performance polypropylene foam, The FloorMuffler® is a patent-pending underlayment that virtually eliminates the harsh reflective noise of laminate and engineered floors. The result is a quieter, more subdued sound similar to traditional hardwood floors.

With your family in mind, we spent over 10,000 man hours developing the technology that most effectively reduces noise while providing superior moisture protection. With The FloorMuffler® under your floors, you'll enjoy a lifetime of quiet.

Nothing tops The FloorMuffler® for acoustics, structural stability, moisture control and quality!

ACOUSTICALLY SUPERIOR Hear the Difference

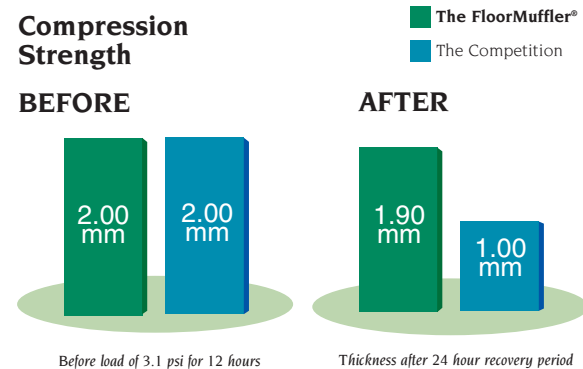

The Golf Ball Test Says It All

- The FloorMuffler® is the most effective underlayment for controlling foot-fall noise
- The FloorMuffler® has earned the highest industry ratings for controlling through-the-floor sound transmissions*
- Impact Isolation Class (IIC) rating 74
- Sound Transmission Class (STC) rating 73

You don't have to take our word for it. Visit your local floor-covering showroom and take *The Golf Ball Test*, and hear the difference for yourself.

* Independent A2LA certified laboratory tests measured both foot noise (Impact Insulation) and airborne noise such as talking and music (Sound Transmission).

STRUCTURAL STABILITY Advanced Cell Technology™

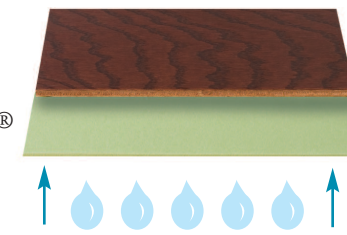

It's What's Underneath That Counts!

With The FloorMuffler® beneath your floor you have the advantages of a unique, patented manufacturing process that:

- Has the highest compression strength on the market
- Maintains the highest compression strength under load
- Protects the integrity of tongue and groove floors
- Protects against surface damage and prolongs the life of your floor

MOISTURE CONTROL Nothing Tops The FloorMuffler®

Unmatched Moisture Control

- Independent tests show that The FloorMuffler® performs 750% better than the industry standard* for moisture vapor transmission
- No need for additional film
- Proven mold and mildew resistant per ASTM G21 Test

* 3 lbs. of moisture per 1,000 sq. ft per 24 hours is an acceptable moisture level, but FloorMuffler® scored a remarkable .5 lbs per 1,000 sq. ft. per ASTM E96 tests

QUALITY Everything You Want Under Your Floor... And More

- Over 25 years of industry experience
- More than 10,000 man hours of product development
- Proudly made in the USA with the most advanced technologies under a certified quality system*

The FloorMuffler® has far exceeded the industries toughest tests, which is why we are able to offer a limited lifetime warranty... and our assurance of a lifetime of quiet.

*ISO 9001:2000 Certified by BVQI since October 20, 1998.
