

# Core CPAP Pillow™

Improves comfort and compliance for CPAP users

- Quilted gusset prevents pillow collapse
- Helps to prevent mask leaks and pressure point soreness
- Designed by CPAP users, for CPAP users
- Fitted pillowcase included

## CPAP Compliance

The Core CPAP Pillow was designed by CPAP users, for CPAP users. This unique and patented pillow has a quilted side panel which creates a distinct edge that will not collapse, allowing the mask to comfortably hang over the side of the pillow.

This prevents the mask from being forced into the side of the face causing leakage or pressure point soreness that occurs with a traditional pillow.

## Accommodative Design

The Core CPAP Pillow's design makes it durable enough to support the head and neck without losing its

edge, yet soft enough to sleep on all night. The pillow is comfortable for both side and stomach sleepers. In addition to CPAP users, patients required to sleep on their side for other reasons such as oral or dental appliances, fibromyalgia and chronic pain sufferers or pregnancy can benefit from the Core CPAP Pillow and its unique shape.

## Two Sizes

The Core CPAP Pillow is available in Standard and Mini sizes. The Mini can be placed on top of a regular pillow if additional elevation is needed.

It also is a great travel option for patients accustomed to sleeping on a Standard Core CPAP Pillow.

## Specifications

### Dimensions

- #278 - 9" x 14" x 4.25"
- #279 - 15" x 20" x 3.25"
- #280 - 15" x 20" x 4.25"
- #281 - 15" x 20" x 5.25"

### Weight

- #278 - 0.5 lbs
- #279 - 1.1 lbs
- #280 - 1.29 lbs
- #281 - 1.59 lbs

### Color

- Pillow, Pillowcase - white

### Material Content

- Pillow - Synthetic down fill
- Pillowcase - Latex free; 92% Cotton, 8% Lycra
