

Leg Spacer®

Positioning Support for Sleeping

HOW TO BUY

- Helps relieve pressure and strain on lower back, knees and ankles.
- Helps relax muscles.
- Moves with you when you turn over.
- Available in two sizes for a comfortable fit.

Help for Back Pain

The Leg Spacer® was designed to help relieve pressure and strain on the lower back, hips, knees and ankles while you sleep. The design accomplishes this by helping keep your legs aligned with your spine.

Contoured Design

The contoured design of the Leg Spacer helps the pillow move with you when you turn over, giving you uninterrupted sleep. It fits comfortably between your legs keeping them in line with the spine. This relieves pressure on the spine and nerves.

High Quality Material

The pillow is constructed with high-quality polyfoam. The pillow is then covered with a blue cloud cotton-poly fabric.

Easy to Use

While lying on you side, place the Leg Spacer between your legs just above the knee.

#1102
