

Memory Foam Face Cradle

Comfortably Supports Your Face During Treatment

- A layer of memory foam conforms to your face for comfort.
- Durable vinyl cover wipes clean easily.
- Standard sizing works with most table systems.

High Quality Material

Our Memory Foam Face Cradle conforms more comfortably to your face. We've taken a resilient, therapeutic foam base and layered it with memory foam to provide added comfort. The cover is made with a durable vinyl that easily wipes clean. We use the highest quality material in all of our products to ensure years of comfort and use. Our foam is precision cut for more consistent performance.

Universal Fit

This cradle follows the industry accepted shape and is designed to work with most standard tables. Simply remove your current face cradle and secure our Memory Foam Face Cradle using the existing hook-and-loop tabs.
